NOTES:

1. Until actual RTP adoption date is known, housing element due date is marked “Estimated.”
   a. “Estimated” date is based on required MPO/RTPA 12-month notice to HCD and any subsequent required notices from changes to the estimated RTP adoption date.
   b. “Actual” date is based on official RTP adoption date. An adoption date past the estimated date used by HCD to determine the RHNA period will change the actual housing element due date and period past the RHNA period (GC 65588(e)(5)).

2. HCD rounds up the housing element due date falling in a month to the 15th or last day of the month.

3. To change from a 5-year to a 8-year housing element period, an MPO/RTPA must elect to adopt the RTP on a 4-year schedule. After making an election, all local governments within a county in the region change the next housing element period to 8-years. For the next 7th housing element cycle (starting after August 31, 2024), the election must have been made by March 1, 2020 (54 months before the next housing element due date) and the next RTP adopted within three (3) years of the election date. For HCD to determine RHNA and housing element periods, GC 65588(e)(5) requires MPOs and RTPAs on a 4-year RTP update schedule to notify HCD in writing of the estimated RTP adoption date at least 12 months prior to the estimated adoption date.

4. Elected to change from 5-year to 8-year housing element planning period.

* Consequence of late element adoption: SB 375 (2008, Chapter 728). GC 65588(e)(4). Jurisdictions on an 8-year planning period that do not adopt their element within 120 calendar days from the start date of the planning period must revise and adopt the housing element every four years until timely adopting at least two consecutive revisions by the applicable due date.
