This Information Bulletin is in response to requests for clarification of the specific objectives and requests for records when the Department conducts audits of commercial coach manufacturers and dealers. Over the past year, the Department has conducted several audits of commercial coach manufacturers and dealers in order to evaluate compliance with state laws and Department regulations regarding commercial coaches. These audits have revealed numerous violations and misunderstandings of the requirements. Accordingly, the Department recently issued Information Bulletin MH 93-08, dated November 30, 1993, in order to clarify the requirements for inspections, manufacture, reporting sales, leases and rents, and for maintaining current and appropriate registration.

The Department's audit objectives and the records required by Section 5011, California Code of Regulations, Title 25, Division 1, Chapter 4 normally requested by a Department Auditor are listed below. This Information Bulletin is intended to provide clarification of the Department’s audit objectives; however, in no way do these clarifications place limitations or restrictions on the Department’s authority provided by law. Section 5011 of the California Code of Regulations requires a licensee to maintain specific records for a period of at least three years. There is no statute establishing a limitation on the age of records the Department auditor may request once a practice of violation has been discovered.
The Department suspended commercial coach licensee audits pending release of this Information Bulletin. These audits will now resume.
