

# Learn about California's State-Led Efforts and Technical Assistance Opportunities to End Homelessness!

**Come learn about how California is investing in solutions to end homelessness, and the support available to communities to strengthen systems and more effectively address homelessness.**

Together in partnership, California's Department of Social Services (CDSS), Department of Housing and Community Development (HCD), and HCD's technical assistance consulting team ([TAC](#), [CSH](#), and [HomeBase](#)) are hosting a workshop for California Continuums and Counties as a pre-conference session at the NAEH conference. California is making significant investments in housing and homelessness programs throughout multiple departments. Come hear how we can strategically use these funds to best coordinate our efforts to end homelessness! You will hear strategies from NAEH on how to best use some of California's various funding streams to create a strong, healthy system. HCD and their TA team will also present their recently launched technical assistance initiative. Through this initiative, HCD is committed to assisting stakeholders to improve the delivery of homeless programs and is offering technical assistance in three distinct categories; capacity building, housing first, and housing stability.

## WHO SHOULD ATTEND

California Continuums of Care (CoC) and Counties who are applicants or recipients of State Housing and Homelessness Funds including No Place Like Home, Emergency Solutions Grant (ESG), CalWORKs Housing Support Program (HSP), Bringing Families Home (BFH), Housing and Disability Advocacy Program (HDAP) and Home Safe.
