SUBJECT: Statement of Assurances Relating to State Prevailing Wage Compliance

To ensure that Home Investment Partnership Program (HOME) project Borrowers and the project contractors are aware of the state prevailing wage requirement, the Borrower and general contractor for each HOME project shall complete and execute the attached Statement of Assurances. The completed and executed Statement of Assurances is to be submitted to your HOME Loan Officer prior to construction loan closing and assures and certifies that state prevailing wages will be paid on the construction work related to the HOME-funded project.

The Statement of Assurances is in addition to the Prevailing Wage Compliance Certificate which is to be submitted after construction is complete and prior to closing the HOME loan (or prior to the final HOME funding draw request). The Prevailing Wage Compliance Certificate certifies that state prevailing wages have been paid to laborers and mechanics.

The necessity for the Statement of Assurances and the Prevailing Wage Compliance Certificate results from the statutory requirement that effective January 1, 2002, as a condition of the funding of the HOME loan, all construction work on the development shall be subject to the payment of state prevailing wages and compliance with the state prevailing wage law, Labor Code 1720 et seq. “Construction work” includes, but is not limited to rehabilitation, alteration, demolition, installation or repair done under contract. The applicability of state prevailing wage rates to HOME-funded projects is codified in the Health and Safety Code at section 50675.4(c)(2).

To facilitate Borrower requests for prevailing wage rates from the Department of Industrial Relations (DIR), the Department will now provide Borrowers with a form letter on Department letterhead that makes that request to DIR from the Department on behalf of the Borrower. Both the cover letter explaining this procedure to Borrowers and the formatted letter to be used by Borrowers to request the prevailing residential wage rates from DIR for individual classifications are attached to this Management Memorandum.

These requests to the DIR for residential projects typically require a special determination and the request to the DIR must be made well in advance (at least 45 days prior to any bidding process and/or execution of a construction contract). Failure to procure a special residential wage decision for inclusion in bid documents and the construction contract results in the construction project being subject to the higher commercial prevailing wage rates. Requests for information on the process for procuring State prevailing wage rates and on requirements for complying with State prevailing wage requirements should be directed to the Department of Industrial Relations.

If you have questions related to this Management Memorandum, please contact your HOME Loan Officer at (916) 322-0356.
