**MEMORANDUM**

**DATE:** February 25, 2013

**TO:** Interested Parties

A handwritten signature in blue ink that reads "Lisa Bates".

**FROM:** Lisa Bates, Deputy Director  
Division of Housing Policy Development

**SUBJECT:** **State Income Limits for 2013**  
**Reflecting New State Hold Harmless Policy**

Attached are State Income Limits for 2013 reflecting median income and household income levels for extremely low-, very low-, low-, and moderate-income households for California's 58 counties and briefing materials. 2013 income Limits are now in effect to replace last year's limits and will be available on the Department of Housing and Community Development's (Department) website <<http://www.hcd.ca.gov/hpd/hrc/rep/state/incNote.html>>.

State Income Limits apply to designated programs and are to be used to determine applicant eligibility (based on level of household income) and to calculate affordable housing cost for applicable housing assistance programs. Note that use of State Income Limits is subject to a particular program's definition of income, family, family size, effective dates, and other factors. Also, definitions applicable to income categories, criteria, and geographic areas sometimes differ depending on funding source and program resulting in some programs using other income limits.

These income limits were updated based on: (1) federal income limits published December 11, 2012 by the U.S. Department of Housing and Urban Development (HUD) for its Section 8 Housing Choice Voucher Program income limits and (2) adjustments the Department made based on particular State statutory provisions and to reflect the Department's new Hold Harmless Policy.

The Department is implementing the State Hold Harmless (HH) Policy proposed and posted December 20, 2012 for review and comment on the Department's website <<http://www.hcd.ca.gov/hpd/harmless.html>>. This policy will hold State Income Limits harmless from any decreases in household income category and median income levels that HUD began applying to its Section 8 Income Limits beginning 2010 after eliminating its longstanding Hold Harmless Policy. HUD determined its HH Policy was no longer necessary due to federal law changes in 2008 (Public Law 110-98) prohibiting any rent decreases in federal or private activity bond funded projects.

## **State Income Limits for 2013 Reflecting New State Hold Harmless Policy (continued)**

Since 2009, the last year HUD's Hold Harmless Policy was in effect, many household and/or median income levels have continued to decrease among a growing number of California counties potentially adversely impacting project rental income among a greater number of affordable housing projects. State Income Limits for 2010 reflected area median income (AMI) decreases in eight counties, whereas for 2013, if the new State HH Policy were not implemented, AMI would decrease in 49 counties. As AMI is used to determine affordable rent levels for applicable assisted housing projects subject to Health & Safety Code Section 50053, a decrease in AMI results in decreases in unit rents and project rental income. Unanticipated decreases in project rental income can jeopardize the viability of existing and future affordable housing projects and discourage providing more affordable units that are most in demand by persons having with the lowest household incomes.

The Department's HH Policy will benefit a broad public and assist in objectives to maintain and increase the supply of affordable rental housing even though the policy will prevent small rent decreases that would benefit a number of residents in assisted projects within particular counties in the event HUD publishes a decrease in median income. The Department's final February 22, 2013 Notice of its decision, summary of 19 public comments received, and HCD's responses will be added to the Department's webpage.

Please contact Department staff at (916) 445-4728 to answer questions concerning State Income Limits.

## **2013 State Income Limits Briefing Materials California Code of Regulations, Title 25, § 6932**

### **Overview**

California Department of Housing and Community Development (HCD), pursuant to Health & Safety Code (H&SC) Section 50093(c), filed with the Office of Administrative Law updates reflecting these 2013 State Income Limits. HCD updates its income limits based on income limit revisions the Department of Housing and Urban Development (HUD) makes to its Section 8 Housing Choice Voucher Program that HUD released on December 11, 2012.

HUD revises Section 8 income limits to reflect changes in household category income levels and median income levels applicable to extremely-low, very-low, and low- income households. California law specifies that its State Income Limits must be updated based on HUD updating its Section 8 income limit levels. The Department also revises State Income Limit levels to reflect the following: (1) adjustments, per State law, to some HUD county median income figures, (2) adjustments to some household income category and area median income levels to reflect HCD's Hold Harmless (HH) Policy implemented in 2013 to replace HUD's former HH Policy, discontinued after 2009, to maintain income category and area median income levels at their highest achieved levels and (3) calculation of California's moderate-income household levels based on changes to county area median income levels.

Following are brief summaries of different methodology used by HUD and HCD in updating income limits for different household income categories.

### **HUD Methodology**

#### ***Extremely Low-Income***

This income category comprises households with a maximum income of 30 percent (30%) of median family income (MFI). HUD calculates extremely-low income limits based on very-low income limits. Extremely low-income limits reflect 60 percent of very-low income limits. However, HUD sets a floor based on minimum Supplemental Security Income (SSI).

#### ***Very Low-Income***

The maximum very-low income limit typically reflects 50 percent (50%) of MFI. HUD's MFI figure generally equals two times HUD's 4-person very low-income limit, except when HUD applies adjustments. HUD may adjust income limits for an area or county to account for a condition that warrants special consideration, called an exception, applicable to areas with unusually high or low family income, uneven housing-cost-to-income relationships or historical exceptions. In addition, HUD restricts adjustments so income limits do not vary more than five percent (5%) of the previous year's very low-income figure. Very low-income limits are used as the base to calculate extremely-low and low-income limits.

**2013 State Income Limits Briefing Materials**  
**California Code of Regulations, Title 25, § 6932**

***Low-Income***

In general, maximum income for low-income households reflects 80 percent (80%) of the MFI level. Most low-income limits represent the higher level of: (1) 80 percent of MFI or (2) 80 percent of State non-metropolitan median family income. However, due to adjustments that HUD sometimes makes, strictly calculating low-income limits as 80 percent of MFI could produce unintended anomalies inconsistent with statutory intent. HUD's briefing materials specify that, with some exceptions, the low-income limit reflects 160 percent of the very low-income limit. HUD may apply exceptions to areas with unusually high or low housing-costs-to-income relationships. An example of the result from HUD applying an exception to an area could be an increase to the low-income limit without an increase to the very low-income limit. In sum, an "80%" limit cannot be assumed to equal 80 percent of the AMI or 4-person median income limit nor 160 percent of the very low-income limit due to adjustments HUD may make.

***Median Family Income***

Calculations of HUD's Section 8 Income Limits begin with the production of Median Family Income (MFI) estimates. The FY 2013 MFI estimates use 5-year American Community Survey (ACS) data (2006-2010), augmented by the current 1-year (2010) ACS estimate of MFI information and then updated with Consumer Price Index (CPI) data through the end of 2011. Upon HUD determining Median Family Income, very low-income limits are then established and utilized to calculate extremely low- and low-income limits.

***Income Limit Calculations for Household Sizes Other Than 4-Persons***

Income limits for all income categories are adjusted for household size so that larger households have higher income limits than smaller households. For all income categories, income limits for household sizes other than 4-persons are calculated using the 4-person income limit as the base. HUD's adjustments use the following percentages, with results rounded to the nearest \$50 increment:

Number of persons in Household: 1    2    3    4    5    6    7    8

Adjustments: 70% 80% 90% Base 108% 116% 124% 132%

***Income Limit Calculations for Household Sizes Greater Than 8-Persons***

For households of more than eight persons, refer to the formula at the end of the table for 2013 Income Limits. Due to the adjustments HUD can make to income limits in a given county, table data should be the only method used to determine program eligibility. Arithmetic calculations are applicable only when a household has more than eight members.

**2013 State Income Limits Briefing Materials**  
**California Code of Regulations, Title 25, § 6932**

**HCD Methodology**

State law (Health & Safety Code sections) prescribes the methodology the Department uses to update its Official State Income Limits. The Department utilizes HUD's Section 8 Housing Choice Voucher Program Income Limits. HCD's methodology involves: (1) increasing some counties' area median levels established by HUD, (2) increasing some 4-person very-low income limits established by HUD, (3) applying adjustments, pursuant to HCD's new State Income Limit Hold Harmless (HH) Policy implemented in 2013, to restore and maintain household income category and county area median income levels at the highest level achieved prior to any HUD decreases from discontinuing its HH Policy after 2009, and (4) determining income limit levels applicable to California's moderate-income households defined by State law as household income not exceeding 120 percent of county AMI.

***Area Median Income***

HCD adjusts some county area median income (AMI) levels set by HUD in comparing and applying the higher of: (1) HUD's median family income figure applicable to counties with a metropolitan statistical area or (2) HUD's statewide median family income figure for non-metropolitan counties (\$57,900 reflecting highest 2012 level pursuant to the Department's new HH Policy).

***4-person Median Income Calculation***

For a few counties, the Department increased HUD's 4-person very-low figure to equal the respective higher county AMI figure pursuant to HCD's HH Policy. Usually, HUD's 4-person median income figure reflects the county's AMI figure. However, because HUD sometimes makes adjustments, based on unusually high median family income, to decrease the 4-person very-low income limit, the Department makes adjustments so its calculation of the 4-person very-low income limit for each county is not less than HUD's median family income figure and, pursuant to HCD's HH Policy, not less than the highest level achieved in a prior year.

***Moderate-Income Levels***

The Department is responsible for establishing California moderate-income limit levels. After calculating the 4-person area median income (AMI) level as previously described, the Department sets the maximum moderate income limit to equal 120 percent of county AMI.

**2013 State Income Limits Briefing Materials**  
**California Code of Regulations, Title 25, § 6932**

**Applicability of California's Official State Income Limits**

Applicability of these State Income Limits is subject to particular programs as program definitions of such factors as income, family, and household size, etc., vary. Some programs, such as Multifamily Tax Subsidy Projects (MTSPs), use different income limits.

For MTSPs, separate income limits apply per provisions of the Housing and Economic Recovery Act (HERA) of 2008 (Public Law 110-289). Income limits for MTSPs are used to determine qualification levels as well as set maximum rental rates for projects funded with tax credits authorized under Section 42 of the Internal Revenue Code (Code). Also, MTSP income limits apply to projects financed with tax exempt housing bonds issued to provide qualified residential rental development under Section 142 of the Code. These income limits are available at this weblink <http://www.huduser.org/datasets/mtsp.html>.

**Number of Persons in Household**

**County**      **Income Category**      **1**      **2**      **3**      **4**      **5**      **6**      **7**      **8**

**Instructions:**

**Eligibility Determination:**

Use household size income category figures in this chart. Determine eligibility based on actual number of persons in household and total of gross income for all persons.

**Determination of Income Limit for Households Larger than Eight Persons:**

Per person (PP) adjustment above 8: (1) multiply the 4-person income limit by eight percent (8%), (2) multiply result by number of persons in excess of eight, (3) add the amount to the 8-person income limit, and (4) round to the nearest \$50.

**Yuba County**

<b>E X A M P L E</b>	4 persons	8% PP Adj	+ 8 persons	=9 persons	8 person +	8% Adj x 2	=10 persons
Extremely Low	17,800	1424	23,500	24,900	23,500	2848	26,350
Very Low Income	29,700	2376	39,200	41,600	39,200	4752	43,950
Lower Income	47,500	3800	62,700	66,500	62,700	7600	70,300
Moderate Income	71,300	5704	94,100	99,800	94,100	11408	105,500

**Calculation of Housing Cost and Rent:**

Refer to Health & Safety Code Sections 50052.5 and 50053. Use benchmark household size and multiply against applicable percentages defined in H&SC using Area Median Income identified in this chart.

**Determination of Household Size:**

For projects with no federal assistance, household size is set at number of bedrooms in unit plus one.  
 For projects with federal assistance, household size may be set by multiplying 1.5 against the number of bedrooms in unit.

**HUD release: 12/11/2012**
