April 26, 2018

**MEMORANDUM FOR:** Interested parties

**FROM:** Zachary Olmstead, Deputy Director  
Division of Housing Policy Development

**SUBJECT:** **State Income Limits for 2018**

Attached are briefing materials and State Income Limits for 2018 that are now in effect and replace 2017 State Income Limits. Income limits reflect updated median income and household income levels for extremely low-, very low-, low-, and moderate-income households for California's 58 counties. The 2018 State Income Limits are on the Department of Housing and Community Development (HCD) website at <http://www.hcd.ca.gov/grants-funding/income-limits/state-and-federal-income-limits.shtml>.

State Income Limits apply to designated programs, are used to determine applicant eligibility (based on the level of household income), and may be used to calculate affordable housing costs for applicable housing assistance programs. Use of State Income Limits are subject to a particular program's definition of income, family, family size, effective dates, and other factors. In addition, definitions applicable to income categories, criteria, and geographic areas sometimes differ depending on the funding source and program, resulting in some programs using other income limits.

The attached briefing materials detail California's 2018 Income Limits and were updated based on: (1) changes to income limits the U.S. Department of Housing and Urban Development (HUD) released on April 1, 2018 for its Public Housing and Section 8 Housing Choice Voucher Program and (2) adjustments HCD made based on State statutory provisions and its 2013 Hold Harmless (HH) Policy. Since 2013, HCD's HH Policy has held State Income Limits harmless from any decreases in household income limits and median income levels that HUD may apply to the Section 8 Income Limits. HUD determined its HH Policy was no longer necessary due to federal law changes in 2008 (Public Law 110-98) prohibiting rent decreases in federal or private activity bond funded projects.

For questions concerning State Income Limits, please contact HCD staff at (916) 263-2911.

# 2018 State Income Limits Briefing Materials

## California Code of Regulations, Title 25, Section 6932

### Overview

The Department of Housing and Community Development (HCD), pursuant to Health & Safety Code Section 50093(c), must file updates to its State Income Limits with the Office of Administrative Law. HCD annually updates these income limits based on U.S. Department of Housing and Urban Development (HUD) revisions to the Public Housing and Section 8 Housing Choice Voucher Program that HUD released on April 1, 2018.

HUD annually updates its Section 8 Income Limits to reflect changes in median family income levels for different size households and income limits for extremely low, very low, and low-income households. HCD, pursuant to statutory provisions, makes the following additional revisions: (1) If necessary, increase a county's area median income to equal California's non-metropolitan median income, (2) adjusts area median income and household income category levels to not result in any decrease for any year after 2009 pursuant to HCD's February 2013 HH Policy. HCD's HH Policy was implemented to replace HUD's HH Policy, discontinued in 2009, to not decrease income limits and area median income levels below a prior year's highest level and, (3) determines income limits for California's moderate-income category.

Following are brief summaries of technical methodologies used by HUD and HCD in updating income limits for different household income categories. For additional information, please refer to HUD's briefing materials at <https://www.huduser.gov/portal/datasets/il/il18/IncomeLimitsMethodology-FY18.pdf>.

### HUD Methodology

HUD Section 8 Income Limits begin with the production of median family incomes. HUD uses the Section 8 program's Fair Market Rent (FMR) area definitions in developing median incomes, which means developing median incomes for each metropolitan area, parts of some metropolitan areas, and each non-metropolitan county. The 2018 FMR area definitions are unchanged from last year. HUD calculates Section 8 Income Limits for every FMR area with adjustments for family size and for areas with unusually high or low family income or housing-cost-to-income relationships.

#### ***Extremely Low-Income***

In determining the extremely low-income limit, HUD uses the Federal Poverty Guidelines, published by the Department of Health and Human Services. HUD compares the appropriate poverty guideline with 60% of the very low-income limit and choose the greater of the two. The value may not exceed the very low-income level.

#### ***Very Low-Income***

The very low-income limits are the basis for all other income limits. The very low-income limit typically reflects 50 percent of median family income (MFI) and HUD's MFI figure generally equals two times HUD's 4-person very low-income limit. HUD may adjust the very low-income limit for an area or county to account for conditions that warrant special considerations. As such, the very low-income limit may not always equal 50% MFI.

#### ***Low-Income***

In general, most low-income limits represent the higher level of: (1) 80 percent of MFI or, (2) 80 percent of state non-metropolitan median family income. However, due to adjustments that HUD sometimes makes to the very low-income limit, strictly calculating low-income limits as 80 percent of MFI could produce unintended anomalies inconsistent with statutory intent (e.g. very low-income limits being higher than low-income limits). Therefore, HUD's briefing materials specify that, with some exceptions, the low-income limit reflect 160 percent of the very low-income limit.

## 2018 State Income Limits Briefing Materials California Code of Regulations, Title 25, Section 6932

HUD may apply additional adjustments to areas with unusually high or low housing-costs-to-income relationships and for other reasons. This could result in low-income limits exceeding MFI.

### ***Median Family Income/Area Median Income***

HUD references and estimates the MFI in calculating the income limits. California law and State Income Limits reference Area Median Income (AMI) that, pursuant to Health & Safety Code 50093(c), means the MFI of a geographic area, estimated by HUD for its Section 8 Program.

HUD's calculations of Section 8 Income Limits begin with the production of MFI estimates. This year, MFI estimates use the 2015 American Community Survey. HUD then adjusts the survey data to account for anticipated income growth by applying the Consumer Price Index inflation forecast published by the Congressional Budget Office through mid-2018. HUD uses the MFI to calculate very low-income limits, used as the basis to calculate income limits for other income categories. For additional information, please see HUD's methodology describing 2018 MFI's at <https://www.huduser.gov/portal/datasets/il/il18/Medians-Methodology-FY18r.pdf>.

### ***Adjustment Calculations***

HUD may apply adjustments to areas with unusually high or low family income, uneven housing-cost-to-income relationship, or other reasons. For example, HUD applies an increase if the four-person very low-income limit would otherwise be less than the amount at which 35 percent of it equals 85 percent of the annualized two-bedroom Section 8 FMR (or 40<sup>th</sup> percentile rent in 50<sup>th</sup> percentile FMR areas). The purpose is to increase the income limit for areas where rental-housing costs are unusually high in relation to the median income.

In certain cases, HUD also applies an adjustment to the income limits based on the state non-metropolitan median family income level. In addition, HUD restricts adjustments so income limits do not increase more than five percent of the previous year's very low-income figure OR twice the increase in the national MFI, whichever is greater. For the 2018 income limits, the maximum increase is 11.5% from the previous year. This adjustment does not apply to the extremely low-income limits.

Please refer to HUD briefing materials for additional information on the adjustment calculations.

### ***Income Limit Calculations for Household Sizes Other Than 4-Persons***

The income limit statute requires adjustments for family size. The legislative history and conference committee report indicates that Congress intended that income limits should be higher for larger families and lower for smaller families. The same family size adjustments apply to all income limits, except extremely low-income limits, which are set at the poverty income threshold. They are as follows:

Number of Persons in Household:	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>	<u>6</u>	<u>7</u>	<u>8</u>
Adjustments:	70%	80%	90%	Base	108%	116%	124%	132%

### ***Income Limit Calculations for Household Sizes Greater Than 8-Persons***

For households of more than eight persons, refer to the formula at the end of the table for 2018 Income Limits. Due to the adjustments HUD can make to income limits in a given county, table data should be the only method used to determine program eligibility. Arithmetic calculations are applicable only when a household has more than eight members. Please refer to HUD's briefing material for additional information on family size adjustments.

**2018 State Income Limits Briefing Materials**  
**California Code of Regulations, Title 25, Section 6932**

**HCD Methodology**

State law (Health & Safety Code Section 50093, et. seq.) prescribes the methodology HCD uses to update the State Income Limits. HCD utilizes HUD's Section 8 Housing Choice Voucher Program Income Limits. HCD's methodology involves: (1) increasing a counties' median income established by HUD to equal California's non-metropolitan county median income determined by HUD, (2) applying HCD's HH Policy, in effect since 2013, to not allow decreases in area median income levels and household income category levels, and (3) determining income limit levels applicable to California's moderate-income households defined by law as household income not exceeding 120 percent of county area median income.

***Area Median Income and Income Category Levels***

HCD, pursuant to federal and State law, adjusts median income levels for all to counties so they are not less than the non-metropolitan county median income established by HUD (\$59,700 for 2018). Next, HCD, for all counties, applies its HH policy to ensure area median income and income limits for all household income categories do not fall below any level achieved in the prior year.

***Moderate-Income Levels***

HCD is responsible for establishing California's moderate-income limit levels. After calculating the 4-person area median income (AMI) level as previously described, HCD sets the maximum moderate-income limit to equal 120 percent of the county's AMI.

***Applicability of California's Official State Income Limits***

Applicability of the State Income Limits are subject to particular programs as program definitions of factors such as income, family, and household size, etc. vary. Some programs, such as Multifamily Tax Subsidy Projects (MTSPs), use different income limits. For MTSPs, separate income limits apply per provisions of the Housing and Economic Recovery Act (HERA) of 2008 (Public Law 110-289). Income limits for MTSPs are used to determine qualification levels as well as set maximum rental rates for projects funded with tax credits authorized under Section 42 of the Internal Revenue Code (Code). In addition, MTSP income limits apply to projects financed with tax-exempt housing bonds issued to provide qualified residential rental development under Section 142 of the Code. These income limits are available at <http://www.huduser.org/datasets/mtsp.html>.

**Instructions:**

**Eligibility Determination:**

Use household size income category figures in this chart. Determine eligibility based on actual number of persons in household and total of gross income for all persons.

**Determination of Income Limit for Households Larger than Eight Persons:**

Per person (PP) adjustment above 8: (1) multiply 4-person income limit by eight percent (8%), (2) multiply result by number of persons in excess of eight, (3) add the amount to the 8-person income limit, and (4) round to the nearest \$50.

Yuba County							
E X A M P L E	4 persons	8% PP Adj	+ 8 persons	=9 persons	8 person +	8% Adj x 2	=10 persons
Extremely Low	25,100	2008	39,550	41,550	39,550	4016	43,550
Very Low Income	30,000	2400	39,550	41,950	39,550	4800	44,350
Lower Income	48,000	3840	63,250	67,100	63,250	7680	70,950
Moderate Income	72,000	5760	94,900	100,650	94,900	11520	106,400

**Calculation of Housing Cost and Rent:**

Refer to Health & Safety Code Sections 50052.5 and 50053. Use benchmark household size and multiply against applicable percentages defined in H&SC using Area Median Income identified in this chart.

**Determination of Household Size:**

For projects with no federal assistance, household size is set at number of bedrooms in unit plus one.

For projects with federal assistance, household size may be set by multiplying 1.5 against the number of bedrooms in unit.

**HUD Income Limits release: 4/1/2018**

HUD FY 2017 California median incomes:

State median income: \$77,500

Metropolitan county median income: \$78,200

Non-metropolitan county median income: \$59,700
