**California Department of Housing and Community Development Awards  
\$11 Million to Address Homelessness**

*Funds will be used to tackle homelessness in comprehensive, multipronged approach*

**SACRAMENTO** – The California Department of Housing and Community Development (HCD) announced awards totaling \$11 million from the federal Emergency Solutions Grants program. These awards will be used to address homelessness throughout California, using a comprehensive, multipronged approach.

The award recipients below will use the grants to help individuals and families avoid homelessness; quickly get back into housing (“rapid rehousing”) if they experience homelessness; conduct outreach and connect people at-risk of or experiencing homelessness to services and temporary or permanent housing.

“Homelessness is a multifaceted, complex problem, but the Emergency Solutions Grants allow us to tackle that problem from a number of angles, which is exactly what we need,” said HCD Director Ben Metcalf. “These grants and the additional funding sources now available in California give us the resources we need to take a big step toward ending homelessness in California.”

Funds for the Emergency Solutions Grants come from the U.S. Department of Housing and Urban Development (HUD) and are distributed by HCD through two separate funding pools: Continuum of Care (CoC) Allocation Pool—regional or local planning bodies that coordinate housing and services funding for homeless families and individuals — as Administrative Entities and Balance of State (BoS) Allocation Pool for Continuums of Care “service areas” that do not contain a city or county that receives Emergency Solutions Grants directly from HUD.

The next round of Emergency Solutions Grants is expected to be available in Spring 2019.

*The California Department of Housing and Community Development is dedicated to the preservation and expansion of safe and affordable housing, so more Californians have a place to call home. Our team works to ensure an adequate supply of housing for Californians and promotes the growth of strong communities through its leadership, policy and program development.
