

California Interagency Council on Homelessness

ERF-3-R, Application

Part 1 (A): ADMINISTRATIVE INFORMATION

Application Window

- Window #1, 11/3/2023 - 1/31/2024
 Window #2, 2/1/2024 - 4/30/2024
 Window #3, 5/1/2024 - 6/30/2024

*Applications received after 5:00 p.m. on the last day of the application window will be reviewed and evaluated during the following application window. **Note, applications submitted after 5:00 p.m. on 6/30/2024 will not be reviewed.***

Eligible Applicant

Select the eligible applicant's jurisdiction type.

- CoC City County

What is the name of the city or county?

County of Los Angeles

Part 1 (B) Contracting Information

Complete all elements of the below section. This information is required for contracting should this application be chosen for award.

Contractor Information

Contractor Name (the legal entity entering into contract with the State)

Los Angeles County Treasurer

What is the Federal Employer Identification Number (FEIN # or tax id number) for the contractor?

95-6000927

Tax ID Form

Taxpayer ID Form.pdf

Governmental entities will need to submit a GovTIN Tax Form, and Non-governmental entities will need to submit a STD 204 Tax Form. Links to each are below:

GovTIN: [Taxpayer ID Form \(ca.gov\)](#)

STD 204: [STD 204 - Payee Data Record \(ca.gov\)](#)

Who is the best contact person for this contract?

Attention to (if applicable):

 This Application uses character limits 

Reaching these limits is not required, however competitive responses will address all parts of each

question asked.

Part 2: PROPOSAL OVERVIEW

Guidance:

In completing this application, applicants must identify the specific encampment that will be prioritized for resolution.

If an applicant proposes to prioritize a large, noncontiguous, or multiple site(s), the encampments may only be addressed through a single application if: (a) the justification for prioritizing the encampments is the same, **and** (b) the demographics and service needs of the residents of the encampments is sufficiently the same that, (c) the same set of services, and service providers, including outreach, interim and permanent housing programs, will be used to resolve the identified people's experience of homelessness in encampments.

Applicant must prepare a separate application for each encampment that does not meet the requirements of (a) – (c).

Proposal Summary

Summarize the proposed Encampment Resolution Fund (ERF) project, including an overview of all key components and/or phases of the project that will be funded in whole or in part with ERF-3-R resources. (1500-character limit)

This proposal will support a series of housing-focused resolutions across six zones in one of LA County's most disproportionately impacted corridors; and it will leverage the County's new Pathway Home program to help 586 people exit the encampment and begin their pathway to permanent housing. The proposal will begin by leveraging 71 units in two existing motel-based interim housing sites in two communities disproportionately impacted by homelessness and poverty: Unincorporated West Athens and the City of Lynwood, where almost 100 people are surviving in RVs, tents, and makeshift shelters near Metro and CalTrans infrastructure. From there, the County will use occupancy agreements to secure five additional motel sites with over 130 additional units to resolve the homelessness for another 164 people in the remaining four zones. Once enrolled, we will conduct comprehensive service connection events and enroll households in housing navigation, case management, and life skills development as they transition toward permanent housing. Most will exit through Time Limited Subsidies which we are pairing with Master Leasing Opportunities to connect everyone with an opportunity to remain housed. As each cohort exits to permanent housing, we will revisit the encampments in each zone to bring up to two additional cohorts into Pathway Home. By the end of the grant, we expect 586 people will have enrolled in interim housing and 446 will have exited to permanent housing.

People Served

Number of people currently residing in prioritized encampment site

254

#

Potential inflow of people into the prioritized encampment site during the grant term.

333

Of people currently residing in prioritized encampment site, how many will be served by this proposal?

254

#

Given the potential for inflow of people into the prioritized encampment site, how many people are projected to be served across the entire grant period?

586

#

Of people projected to be served across the entire grant period, number of people projected to transition into interim housing.

586

#

Of people projected to be served across the entire grant period, number of people projected to transition into permanent housing

446

#

*This should include both people who transition directly into permanent housing **and** people who may first transition into interim housing.*

Is the prioritized encampment site part of a larger encampment area?

Yes No

Encampment Information

1. Briefly describe the characteristics of the people residing within the prioritized encampment site,

including demographics, household compositions, disabilities, and projected service and housing needs. Include how this information was gathered. (1500-character limit)

The primary population residing in the zones includes single male and female individuals, representing a variety of ethnicities. A recent data pull outlining the six zones showed that 45% of the population were Black/African American, 27% identified as multiracial, 11% identified as White, 10% identified as Hispanic/Latina/e/o, and less than 1% identified as either Asian/Asian American or preferred not to answer. Additionally, in zones 1 - 5, more than 50% of the individuals residing were between the ages of 25 - 54. Zone 6 included roughly half between the ages of 25-54 and the remaining half reported being 55 years old or above. It is projected that individuals residing in these six zones will need a myriad of services, including documentation replacement (ID, SS Card), mental health and substance abuse support, possible care for companion animals, and ultimately interim and permanent housing. Outreach teams will assess the needs of each individual to ensure connections to the appropriate resources. Recent client location data was pulled from HMIS, and filtered on its intersection with the target zones, including a 200-foot buffer zone. The buffer zone allows us to account for GPS accuracy, engagements close but not at encampments, and clients part of the encampment's community but outside its boundaries. This list of unique clients created the cohort of analysis for demographic data, which was further broken into percentages by zone, for each demographic data element.

If this proposal seeks to serve a particular target population, specify and describe.

2. Briefly describe physical characteristics of the prioritized encampment site in which the people you are proposing to serve are residing. The description must include the specific location, physical size of the area, the types of structures people are residing in at the site, whether vehicles are present, and any other relevant or notable physical characteristics of the site. (1000-character limit)

This encampment includes six zones, where multiple LA Metro stations facilitate the regular movement of PEH among them. The zones are along the 105 corridor/Metro C-Line, where unsheltered PEH are living in the riverbeds and taking refuge near the freeway where it crosses the LA and San Gabriel Rivers. Zones 1 and 2 focus on an area between the San Gabriel River Bridge and Santa Fe Springs Park, where the 105 intersects with the 605 and terminates at the Norwalk Metro Station. Zone 3 is just north of the 105, where the intersecting 710 runs parallel to the LA River up to Firestone Boulevard. Zones 4, 5, and 6 are all encampments along the 105 that intersect with the C-Line Metro Stations at Lynwood/Long Beach Blvd, Willowbrook/Rosa Parks, and Vermont/Athens. Five of the six zones are predominately makeshift shelters, with Zone 6 dominated by RVs. Taken together, the six zones in this encampment cover an area of 0.82 square miles within a County that includes over 4,000 square miles.

3. Why is this encampment site being prioritized? Applicant should identify any distinguishing needs and/or vulnerabilities of the people living in this encampment and/or any health, safety, or other concerns that led the applicant to prioritize this site over other encampments. (1000-character limit)

LA County adopted a seven-step prioritization framework to determine which encampment to include and which zones to prioritize. First, we identified our 62 largest encampments (with 10 or more people) using consolidated data from the Los Angeles Housing Services Authority (LAHSA) and CalTrans. Second, we isolated encampments near the state right of way; and then focused on zones the County owns/maintains in unincorporated areas or near smaller, incorporated municipalities. Third, we applied our racial equity index scores to examine each hotspot/zone to ensure our prioritization focuses on communities disproportionately impacted by homelessness and poverty. Fourth, we isolated zones with elevated flood hazards in the LA and San Gabriel Riverbeds. Fifth, we assessed each zone for the presence of oversized recreational vehicles. Finally, we assessed whether we have a successful track record of resolving zones within the prioritized encampment through our Pathway Home Program.

ERF authorizing legislation requires funding be used for “prioritized” encampments. Applicants must, therefore, provide a justification for the prioritization of the encampment proposed to be served. Except in very small communities where it may be possible to justify prioritizing all of a small number of encampments for resolution using this fund source, ERF is not intended to be used to fund a community-wide encampment resolution program.

Attachment: Map

ERF3_Zone1_Buffer.pdf

ERF3_Zone2_Buffer.pdf

ERF3_Zone3_Buffer.pdf

ERF3_Zone4_Buffer.pdf

ERF3_Zone5_Buffer.pdf

ERF3_Zone6_Buffer.pdf

The provided map should clearly indicate the area of the prioritized encampment. The map may also indicate the location of other key service, shelter, and housing resources described in this proposal.

4. Is the prioritized site on a state right-of-way?

No Yes - partially Yes - entirely

Attachment: Caltrans Letter of Support

ERF-3R Letter of Support-CalTrans.pdf

Projects entirely or partially on a state right-of-way must include a Letter of Support from Caltrans.

- This letter must include confirmation from Caltrans that they are aware of and in support of the ERF project, including the projected timeline, and that they will only take action on that encampment site in collaboration with and at least 2 weeks-notice to the ERF grantee, unless critical circumstances exist when an encampment poses an imminent threat to life, health, safety, or infrastructure and must be immediately addressed.
- This letter should be signed by the local Caltrans Deputy District Director of Maintenance (DDDM) or their designee.
- This letter may also include Caltrans role in the proposal and what Caltrans resources are being leveraged.

Proposal’s Outcomes

5. What outcomes does this proposal seek to accomplish by 6/30/2027? Outcomes should be

specific, measurable, attainable, relevant, and time-bound (SMART). (1000-character limit)

This proposal seeks to provide a pathway to permanent housing for 586 residents of up to six zones within the prioritized encampment using LA County's Pathway Home program. First, LA County will use Pathway Home's proven unified command structure to conduct repeated encampment resolution operations in six zones, bringing 586 individuals from the outreach By Name List into 203 motel-based interim housing beds secured by the County. Next, 100% of Pathway Home participants will receive a comprehensive service connection event to increase their connection to economic, wellness, and legal assistance benefits to which they are entitled. From there, Pathway Home will connect at least 75% of participants to permanent housing within 180 days through funded housing navigation, time-limited subsidies, and master-leasing opportunities. Those permanent housing resources should provide housing stability to Pathway Home participants for up to two years.

6. What are the primary activities the applicant will implement to achieve each of the proposal's outcomes? (1000-character limit)

The primary activities of the Pathway Home program include: (1) Interim Housing Acquisition where LA County enters into temporary occupancy agreements with vetted motel partners; (2) Operational Planning to conduct six encampment resolutions in targeted zones, including the contractual and funding infrastructure necessary to execute the operation and services; (3) Encampment Resolution using a Unified Command Structure that includes Outreach Coordination, Interim Housing, Program Intake, Safety/Security, Communications, Transportation, and Logistics; (4) Service Connection Events that bring local, state, and federal resources on-site to Pathway Home program participants; (5) Housing Stabilization that focuses on delivering case conferencing, housing navigation, and permanent housing opportunities to participants as needed; and (6) Mitigation of the repopulation of the prioritized encampment through the provision of permanent housing to previously encamped residents.

7. How will the applicant measure progress towards the proposal's outcomes? (1000-character limit)

LA County will measure progress toward the proposal's outcomes using the infrastructure of the Pathway Home program. First, the County will track whether we secure enough motel-based interim housing beds and service contracts to accommodate each encampment zone. Then we leverage LAHSA's Outreach Coordination to generate an accurate BNL of Pathway Home "placements" which eventually gets imported into the Pathway Home participants database and is routinely reconciled with HMIS records. The current living situation and program status for all Pathway Home participants are tracked in HMIS and the County works with LAHSA to routinely track progress toward permanent housing and increased County service/benefits connection. That data is routinely shared with program leadership for continuous improvement and refinement. In addition, a high-level summary of Pathway Home's progress toward permanent housing is shared on our website: <https://homeless.lacounty.gov/pathway-home/>.

8. Are there any local ordinances, resources, or other factors that may hinder achieving the proposal's outcomes? If so, how will the applicant navigate these challenges? (1000-character limit)

The primary factor that hinders LA County's ability to achieve the proposal's outcomes is the ability to site non-congregate interim housing in communities near the encampment. However, LA County already secured 20 beds near Zone 3, 30 beds near Zone 4, and 100 beds near Zone 6, so we can confidently leverage existing resources and secure additional bed capacity in this area. This encampment includes property owned/maintained by at least nine municipalities, all with varying ordinance and posting requirements. LA County has a successful track record of conducting multi-jurisdictional Pathway Home operations using the Unified Command Structure, which enables each participating partner to maintain authority, responsibility, and accountability for its personnel and other resources while jointly managing and directing encampment resolution activities through the establishment of a common set of objectives, strategies, and a single Encampment Resolution Action Plan.

9. Does this proposal fund a standalone project, or is the proposed project one component of a larger initiative?

Standalone Larger initiative

If it is part of a larger initiative, describe the role and significance of this project in achieving the objectives of the larger initiative. (1000-character limit)

This funding will help LA County expand our Pathway Home program. Leveraging powers under the state of emergency on homelessness declared by the Board of Supervisors in January 2023, LA County launched Pathway Home to resolve encampments countywide, including recreational vehicles, in partnership with local jurisdictions and unincorporated communities. With Pathway Home, the County is reducing unsheltered homelessness in specific communities by helping people living on the streets come indoors, receive the supportive services they need to achieve housing stability, and ultimately move into permanent housing. In just six months, the County has already conducted 10 operations, moved 443 people into interim housing, removed 144 RVs from the public streets, and permanently housed dozens of participants. The program is described in extensive detail and videos of our operations and participants are all available on our website: <https://homeless.lacounty.gov/pathway-home/>.

Centering People

10. Describe how the perspectives of people with lived experience of homelessness meaningfully contributed to the content of this proposal? How will people with lived experience be part of the implementation of this ERF project? If individuals living in the encampment site were included in the development of this proposal, describe how their input was obtained and how that input shaped the proposal. (1000-character limit)

This proposal is based on the design and implementation of LA County's Pathway Home program, and people with lived expertise are central to that program's leadership, design, and implementation. Since its inception, Pathway Home has leaned on the perspectives of people with lived expertise to inform its guiding policies, protocols, and contract requirements. In fact, the program's design was vetted by LAHSA's Lived Experience Advisory Board, which resulted in the infusion of life skills development into the core Scope of Required Services for providers. The program is led by individuals with lived experience and relies on outreach teams whose trusted relationships with encampment residents are based on a combination of lived expertise and professional training. Finally, Pathway Home routinely lets encampment residents share their own stories of survival and resilience through compelling communications that center their humanity and possibility instead of their trauma.

11. Briefly describe how the proposal exemplifies Housing First approaches as defined in Welfare and Institutions Code section 8255. (1000-character limit)

The proposal is based on the design and implementation of LA County's Pathway Home program, which enshrined a Housing Focus as one of six foundational values, consistent with the components of Housing First as defined in the Welfare and Institutions Code section 8255. Sustainably reducing unsheltered homelessness is only possible when we partner with people experiencing homelessness and support their pathways toward permanent housing stability. Therefore, a housing-focused Pathway Home operation is one where every partner is clear that our ultimate goal is for each participant to achieve permanent housing stability as fast as possible, without unnecessary preconditions, while connecting them to optional services. Participation is voluntary, and the program requires all contracted motels and providers to provide access to beds and services regardless of substance use, credit history, or criminal background. We also require a harm reduction approach to all supportive services.

12. Describe how each of the following service delivery practices are incorporated into the outreach, interim shelter (if applicable), and permanent housing aspects of the proposed ERF project: (a) individual participant choice and (b) trauma informed care. (1000-character limit)

The proposal is based on the design and implementation of LA County's Pathway Home program, which enshrined Trauma-Informed Care as one of its six foundational values. People experiencing unsheltered homelessness have likely experienced events or circumstances that are physically or emotionally harmful, with lasting impacts on their mental, physical, social, emotional, and spiritual well-being. LA County values encampment resolution efforts that recognize that someone's behavior is likely connected to a coping strategy designed to survive adversity, and we respond by applying principles of safety, trust, support, collaboration, empowerment, and cultural connection. Participation is incentivized but completely voluntary, and we design our encampment resolution efforts to accommodate the needs and preferences of participants and to minimize re-traumatization, which includes a conscious effort to avoid unwarranted criminalization, dispossession, and/or institutionalization.

13. Describe how harm reduction principles will be incorporated into the outreach, interim housing (if applicable), and permanent housing aspects of this ERF project. (1000-character limit)

The proposal is based on the design and implementation of LA County's Pathway Home program, which requires a harm reduction approach in all aspects of the program's design and implementation. All outreach teams working with encampment residents are equipped with Narcan and are trained to recognize the signs of overdoses. They are also trained to understand high-risk behaviors and the presence of domestic or interpersonal violence to ensure we bring participants safely into the program. In addition, the scope of required services requires the interim housing, housing navigation, and permanent housing providers to infuse harm reduction models into their services to prevent a participant's loss of housing and/or termination from the program based solely on his or her inability to stop engaging in harmful behaviors.

14. Describe the services that will be provided to improve people's health, dignity, and safety while they continue to reside within the prioritized encampment site. (1000-character limit)

While unsheltered individuals continue to reside in encampments, LA County works with our multi-disciplinary outreach partners to provide a suite of voluntary services. For example, outreach workers from the LAHSA and non-profit providers can always offer access to harm reduction supplies, wellness kits, and any available interim housing beds. Outreach teams work with each resident to get their documents together for housing and benefits applications. In addition, mobile multi-disciplinary teams can book outpatient medical, mental health, and substance use treatment appointments, and street-based medical teams can deliver a limited set of healthcare services in the field to engage people in the care and treatment of acute and chronic conditions. The ultimate goal is to use these engagements to inform a series of case conferencing meetings and the development of accurate BNL for each encampment zone to inform the Pathway Home operations.

15. Identify what controls are or will be in place to ensure that all ERF-3-R funded parties will not penalize homelessness. The term “penalize homelessness” means to impose, by a governmental unit, criminal or civil penalties on persons who are homeless in a manner that is related to those persons’ engagement in necessary human activities, including sleeping, resting, and eating. (1000-character limit)

LA County does not criminalize homelessness, and our encampment resolution efforts are all designed to provide adequate notice and sufficient outreach whenever a location is no longer safe for unsheltered survival at that location (e.g., elevated flood/ fire hazard). If a zone targeted by this proposal is in a flood hazard area, then the County will post a written notice and conduct rigorous outreach to encampment residents before the operation date. Encampment residents are incentivized to accept placement in the Pathway Home program (through non-congregate shelter offers, and pre-funded permanent housing pathways), but they are not compelled to do so. Refusal to participate is never subject to criminal penalties or even punitive action of any kind. In fact, people who refuse participation in Pathway Home are referred to alternative placements, and their names are kept on a priority access list in case they ever change their minds and continue to experience unsheltered homelessness.

16. Describe how this proposal considers sanitation services for people residing in the prioritized encampment. This may include but is not limited to non-intrusive, curbside waste removal and access to clean and available bathrooms. (1000-character limit)

Prior to full-scale encampment resolution, LA County provides non-displacement sanitation services to targeted encampments where we combine housing-focused outreach with enhanced sanitation services like an extra dumpster for unwanted property removal. For people experiencing vehicular homelessness in recreational vehicles, we also arrange for proactive pumping of sewage and greywater storage prior to any moving, towing, or dismantling of unsafe vehicles that residents intend to surrender. During the operation, the County’s Public Works team partners with our LA Sheriff’s Homeless Outreach Services Team (LASD-HOST), to document any unwanted property and record video consent for the transfer of unwanted personal property to the County for removal and disposition. For unwanted vehicles, LASD-HOST works with the owner to ensure their due process rights are respected before the vehicle is dismantled.

Part 3: IMPLEMENTATION

Core Service Delivery and Housing Strategies

17. Describe the proposed outreach and engagement strategy, case management, and / or service

coordination for people while they are continuing to reside within the encampment site. Quantify units of service to be delivered including the ratio of staff to people served, frequency of engagement, and length of service periods. (2000-character limit)

Street Outreach teams, led by LAHSA, assess each of the six identified zones, with which teams are familiar, and engage with the Person Experiencing Homelessness (PEH) residing within. After assessing the number of PEH, dwellings, and visible needs in each zone, teams collaboratively develop a BNL to ensure every resident has an identified outreach Point of Contact and can be moved quickly into appropriate housing. All outreach teams in the LA CoC subscribe to trauma-informed, harm-reductionist, and client-centered approaches. With a 1:5 ratio, teams will support PEH at least one month before the encampment resolution date. Teams will conduct outreach twice weekly, ramping up to daily in the two weeks before the resolution. Sustained outreach and increasing frequency ensure everyone is represented on the BNL and assigned a housing resource. As part of the encampment resolution effort, case conferencing sessions are held for outreach teams and key partners, including the Department of Mental Health and Department of Health Services, to discuss each client on the BNL, their vulnerabilities, barriers to housing resources, and strategies to address those barriers. Knowing that PEH may be reluctant to engage, meeting clients where they are is vital to successful interactions. At first, services offered are providing basic needs and harm reduction supplies, obtaining vital documents, and connection to additional services (pet support, employment, etc.) Case conferencing provides a space to discuss challenging engagements and receive feedback on new approaches. Once trust is established, outreach members focus on housing: determining the type of housing needed, securing required documents to move into permanent housing, assessing any higher needs, and connecting PEH with mental, behavioral, and physical health services. Ultimately, this information builds an individual case plan that can expedite housing at each stage of the effort.

18. Describe the role of Coordinated Entry in the context of this proposal and how Coordinated Entry policies or processes will support and / or hinder the implementation of this proposal. (1000-character limit)

Pathway Home is consistent with Coordinated Entry System (CES) guidance. Participants are engaged in strengths-based, problem-solving conversations as they are enrolled in non-congregate IH. Needs are well-understood by outreach through case conferencing before each operation. We follow CES guidance to administer a CES assessment whenever appropriate, a participant may decline at any time, and an assessment is only completed when certain criteria are met: (1) the provider needs to assess the PEH's housing needs and eligibility; (2) staff has been trained on the assessment; (3) staff has meaningful rapport with the participant; and (4) a trained staff quickly identifies the need for PSH. Once assessed, scores are used, in combination with other factors like "document readiness", to match PEH to the most appropriate resources. In addition, the CES Matching Policy creates avenues for participants to be prioritized for SUNOFO, Sponsor-Based, and Housing Stability Vouchers.

19. Describe each of the specific (a) interim housing and (b) permanent housing opportunities that will be used to achieve the proposed outcomes of this ERF project. Demonstrate that any ERF-3-R funded interim housing capacity is either non-congregate or clinically enhanced congregate shelter. (2000-character limit)

The proposal is based on the design and implementation of LA County's Pathway Home program, which has a very specific core service delivery and progressive engagement strategy that is already proving effective for housing-focused encampment resolution. The program is predicated on the assumption that encamped residents are making a rational (but unfortunate) choice to avoid congregate shelters, which is especially true for people surviving in recreational vehicles. Therefore, LA County works with motel partners to establish occupancy agreements at motels across the county so we can offer a more diverse suite of interim housing options for consideration. To date, LA County has already secured 10 motel partnership agreements with even more in the pipeline. Our goal is to have ~800 non-congregate motel rooms under contract by July 2024. To deliver services at those hotels, the County also enters into interim housing service agreements with qualified homeless service providers, and those scopes of work have been customized for the unique features of the Pathway Home encampment resolution model. One of those unique features is that Pathway Home front-funds housing navigation and time-limited subsidies for participants to ensure each interim housing site is credibly capable of ensuring participants exit to permanent housing within 180 days. A housing stabilization plan must be in place for each participant within 14 days of program enrollment and housing navigators do warm handoffs with other case managers to ensure the client progresses toward "document readiness." As a participant's long-term housing needs come into focus, LA County works with our contracted providers to identify the most appropriate exit pathway. For most, that path will involve a time-limited subsidy for up to two years. However, if more support is needed, LA County works with our health and mental health partners to identify opportunities for higher levels of care.

20. Demonstrate the applicant's commitment and ability to deliver permanent housing solutions to the people residing in the prioritized encampment, including by providing examples of prior successful efforts to permanently house similarly situated individuals. (2000-character limit)

Since launching Pathway Home in August 2023, LA County has already conducted 10 encampment resolution operations, brought over 440 individuals into the program, and almost X% of them have already exited homelessness to permanent housing within 90-120 days of encampment resolution. LA County's commitment to delivering permanent housing is embedded in its name, and we prioritize permanent housing solutions as the primary strategy to resolve encampments. Since launching, we have maintained that commitment by front-funding housing navigation and time-limited subsidies for participants, and by leveraging master leasing agreements and the PSH pipeline to prioritize encampment resolution program participants. The most compelling concrete example of our ability to permanently house encampment residents occurred on November 20-21st, 2023, when twenty people who were living in an RV encampment in an unincorporated part of South Los Angeles each moved into their apartments just in time for Thanksgiving. Their new home is a 4-story modular apartment building being master-leased by the Los Angeles Homeless Services Authority (LAHSA) with funding provided by LA County and the largest local Medi-Cal managed care plans, L.A. Care Health Plan and Health Net, through the Housing and Homelessness Incentive Program (HHIP). These residents were all part of a Pathway Home encampment resolution on August 22 -24, which focused on RVs, or recreational vehicles. During that resolution, Pathway Home helped 58 individuals move into hotels and other interim housing managed by the County's contracted service provider, St. Joseph Center. We also took 30 unsafe, inoperable, and otherwise unlivable RVs off the streets. To facilitate their transition to permanent housing, the County provided participants with a range of supportive services, as well as housing navigation and time-limited rental subsidies, and just before Thanksgiving, twenty of the participants (34%) moved into permanent housing.

21. Describe how this proposal is tailored to meet the needs and preferences of people residing within the prioritized encampment. (1500-character limit)

Pathway Home was developed with the needs and preferences of people residing in encampments in mind. First, LA County's occupancy agreements create non-congregate shelter options that afford participants more privacy and allow them to remain with their adult partners, pets, and service animals. Second, we carefully plan each operation to include as many members of the encampment as possible, and we leverage motel sites that are within a few miles of the encampment, so participants stay connected to their community. During the operational planning, we leverage case conferencing to identify strengths, needs, and challenges that the program will need to account for as we finalize the BNL and the service partnerships. For example, we match people with physical disabilities to an ADA-accessible room and connect them to the accommodations and benefits to which they are entitled. We engage our mental health partners to provide a higher level of support to people with severe psychological impairment. We make every effort to keep victims of intimate partner violence safe as we consider where they will be placed in the interim housing system. We collaborate with our animal care and control partners to ensure pets and service animals are properly cared for as they transition indoors alongside their owners. Finally, we leverage culturally competent, multi-lingual staff with lived expertise to ensure our program aligns with the community we serve.

Where applicable, identify the people, data, evidence, and / or other sources of information that was relied upon for this proposal.

Table 1: Projected Living Situations Immediately Following the Encampment

For people served who exit the encampment, what are the projected Living Situations Immediately Following the Encampment, including but not limited to, permanent housing, interim sheltering, and unsheltered?

Please provide responses in the table below. Add a row for each projected living situation. (250-character limit for each cell)

Briefly Describe Each Projected Living Situation Immediately Following the Encampment	Is This Permanent Housing?	Quantify the Capacity (e.g., number of beds/units, frequency of bed/unit availability)	Prioritized or Set-Aside for ERF-3-R?	Is this living situation funded by ERF-3-R and / or Leveraged Funds?	% of Served Persons Projected to Fall Within This Living Situation
Motel-Based Interim Housing	No <small>Yes/No</small>	131 rooms	Prioritized <small>Pri/Set-Aside/Neither</small>	ERF-3-R <small>ERF/Lev/Both</small>	65 <small>%</small>
Motel-Based Interim Housing	No <small>Yes/No</small>	72 rooms	Prioritized <small>Pri/Set-Aside/Neither</small>	Leveraged Funds <small>ERF/Lev/Both</small>	35 <small>%</small>

Table 2: Permanent Housing Opportunities

A permanent housing opportunity is a combination of project and/or service provided to an individual with the goal of helping the individual obtain permanent housing. Of course, applicants cannot and do not need to provide every possible scenario; Cal ICH is looking to understand the primary, expected permanent housing opportunities for people projected to be served by this proposal.

Please provide responses in the table below. Add a row for each projected opportunity. (250-character limit for each cell)

Describe the Permanent Housing Opportunity	Prioritized or Set-Aside for ERF-3-R?	Quantify the Capacity of the Housing and Service Opportunity	Is this Housing Opportunity Funded by ERF-3-R and / or Leveraged Funds?
Housing-Focused Supportive Services (in Interim Housing)	Prioritized Pri/Set-Aside/Neither	65% of Pathway Home participants	ERF-3-R ERF/Lev/Both
Housing-Focused Supportive Services (in Interim Housing)	Prioritized Pri/Set-Aside/Neither	35% of Pathway Home participants.	Leveraged Funds ERF/Lev/Both
Housing Navigation	Prioritized Pri/Set-Aside/Neither	75% of Pathway Home participants	ERF-3-R ERF/Lev/Both
Time-Limited Subsidies	Prioritized Pri/Set-Aside/Neither	65% of Pathway Home participants	ERF-3-R ERF/Lev/Both
Master Leasing	Prioritized Pri/Set-Aside/Neither	40% of Pathway Home participants	ERF-3-R ERF/Lev/Both

22. Describe strategies the applicant will use to ensure that people are not displaced from the prioritized encampment into another unsheltered location. Include strategies that are in addition to/complement the interim shelter and permanent housing opportunities that are part of this proposal. (1000-character limit)

The primary strategy to ensure people are not displaced is to incentivize their participation in the Pathway Home program by making it an attractive and credible offer of non-congregate interim housing, comprehensive service connection, and a funded pathway to permanent housing. Pathway Home is voluntary, so uninterested residents are allowed to remain encamped unless they are encamped in an area that has been deemed unsafe for habitation (e.g., a fire/flood hazard area, or near a public infrastructure project). For people surviving in unsafe RVs, LA County deploys our highly trained homeless outreach teams to collaborate with the vehicle's inhabitants to determine their living situation and vehicle ownership. If an alternative living arrangement is available, it is offered before any action is taken to remove the vehicle from the public roadway, and people are never encouraged to move to another unsheltered location.

23. Describe specific strategies and/or services the applicant will use to prevent returns to unsheltered homelessness among people from the prioritized encampment who are sheltered and housed through this ERF project. Include whether these strategies will be funded with ERF-3-R funds and, if not, what other resources will be leveraged. (1000-character limit)

To prevent returns to unsheltered homelessness, LA County uses five core strategies, all embedded into the Pathway Home program's design. First, we make it attractive to exit the encampment and surrender unsafe vehicles by creating non-congregate interim housing options through occupancy agreements. Second, we partner with competent homeless service providers to deliver housing-focused supportive services like case management, life skills development, and housing navigation services. Third, within three weeks of program enrollment, we conduct comprehensive, on-site service connection events for participants to expedite and simplify their enrollment in local, state, and federal benefits that promote wellness and housing stability. Fourth, we fund a time-limited permanent housing exit pathway for participants to ensure they continue housing stability after their interim housing. Finally, we leverage the CES system to connect participants to master leasing and PSH opportunities.

24. Describe how this proposal considers and plans for the dynamic nature of encampments including potential inflow of people into the geographically served areas. (1000-character limit)

Outreach teams will create a BNL for each zone which distinguishes long-term residents from those who have more recent history. The BNL includes two sets of individuals, the "placement" list, which includes long-term individuals who will be offered Pathway Home enrollment first, and the "referral" list, which includes newer participants to the area who will be offered other interim housing. The goal is to ensure that no one falls through the cracks and can be captured for future housing and interim housing placement. During weekly case conferencing leading up to the encampment resolution operation, all participants can be thoroughly assessed to ensure everyone's needs are captured and documented, and that everyone is offered some level of support. As each cohort exits to permanent housing, we will reuse those interim housing beds to bring in new cohorts from each zone that might have flowed into the site, or that we were previously unable to place in the program from the referral list.

25. Describe how participants in this ERF project will be supported with continued access to, and storage of, their personal property while in the encampment, in interim housing (if applicable), and in permanent housing. (1000-character limit)

While at the encampment, residents can continue accessing personal property without County involvement. When the amount of property creates safety or accessibility issues (e.g., blocking public rights of way, leaking hazardous waste), then LA County collaborates with residents on non-displacement, collaborative cleanups. During those operations, residents are offered opportunities to throw away unwanted property or have their RV waste pumped out at no cost to them. During encampment resolution operations, residents work with trusted outreach workers to identify valuable personal property, key documents, and treasured animals to join them as they transition to the motel. LA County's HOST teams record video consent for the voluntary forfeiture of unwanted property before the resident leaves the encampment. While in interim and permanent housing, case management staff work with residents to secure necessary household items and minimize hoarding through life skills development services.

26. Describe how participants in this ERF project who have service animals and/or pets will be supported while in the encampment, in interim shelter (if applicable), and in permanent housing. (1000-character limit)

In LA County, the homeless response system is guided by a set of best practices, including providing low-barrier access to shelters and other needed services. Many individuals experiencing homelessness in Los Angeles County have a pet that will need to be placed into housing with them. While in the encampment, outreach teams provide necessities to both pets and their humans. With an established relationship with Animal Services, pets can be cared for both in an unsheltered and sheltered situation. We work with motels, interim housing providers, and permanent housing placements to ensure that both pets and their caregivers can remain together. If a participant has many pets, we work with them to safely place them in a humane environment. After enrollment in the Pathway Home program, LA County's Department of Animal Care & Control participates in service connection events to ensure service animals and pets have access to basic animal care and veterinary care services.

Budget and Resource Plan

27. State the total amount of ERF-3-R funds requested.

\$51,554,398.92

\$

28. State the estimated dollar value of secured, non-ERF-3-R resources that will help meet this proposal's outcomes.

\$16,050,988.00

\$

29. Identify and describe each leveraged non-ERF-3-R resource and how that specific resource will be used to help meet the proposal's outcomes, including the permanent housing outcomes. (1000-character limit)

The proposal leverages over \$15M in Measure H, HHIP, and other resources to support the 586 participants transitioning out of encampments. Leveraged interim housing, including existing motel-based, Safe Parking, congregate beds, and the Family Programs system provide additional options for unsheltered households and are leveraged through LAHSA's provider network. The leveraged master leasing costs include property management fees to help the 446 PEH move to permanent housing. Additionally, LAHSA's Sr. Advisor and CEO-HI's Local Jurisdictions Division will be partially leveraged to oversee the implementation of this ERF proposal, and work collaboratively to track and monitor the progress of program goals, financial spend-down, and required reports to stakeholders. Other leveraged resources include TOT, damage mitigation funds, and debris removal costs with detailed descriptions in our budget submission.

Applicants are directed to provide a detailed description of other fund sources, and system capacity, that will be leveraged to achieve the outcomes proposed for the ERF-3-R funded project (especially as it relates to meeting this proposal's permanent housing outcomes) and, if applicable, to sustain the new programming beyond the end of the grant term.

This includes prior ERF awards, HUD unsheltered NOFO, and other federal, state, and local funding sources.

Applications will be evaluated with the understanding that communities vary significantly with respect to the current availability of other fund sources that can be used as leverage for their proposed projects and to sustain the projects beyond the grant term.

In the absence of currently available resources, Applicants are encouraged to provide a specific plan for obtaining the funding necessary to sustain their project beyond the grant term if the project is intended to continue.

30. Describe how the proposal is a prudent and effective use of requested funding relative to the number of people it seeks to serve, the types of services and housing to be provided, and any benefits to the community's efforts to address homelessness that will extend beyond the grant term, including ongoing expansion of interim and permanent housing capacity. Include an explanation of how the requested ERF-3-R amount was determined. (1000- character limit)

LA County is clear that the most cost-effective way to end homelessness is to prevent it from happening in the first place. However, as we scale up eviction prevention and the Homeless Prevention Unit (HPU) and establish the LA County Affordable Housing Solutions Agency (LACAHS), Pathway Home is a prudent immediate response to frustrated homeless residents and communities, because it proves we can resolve people's housing crisis without criminalization. This proposal is a prudent and effective use of funding because it will be deployed through a housing-focused, service-enriched encampment resolution program with a proven track record of successfully supporting households on their journey from encampments to permanent housing while balancing community needs. The proposal funds interim housing, supportive services, time-limited subsidies, and the costs associated with mitigating unsafe living situations and restoring public spaces to their intended use.

Attachment: Standardized Budget

ERF-3-R Standardized Budget_LA County_01.24.24.xlsx

Applicants must use the [ERF-3-R Budget Template](#) available on [box.com](#)

Key Entities and Staff

31. First, describe the implementing organization and specific unit or office within the implementing organization that would administer ERF-3-R. Then, describe their role and primary responsibilities for this proposal. Finally, if these entities have managed a complex homelessness project or grant, describe how those experiences informed this proposal. (1500-character limit)

LA County's Chief Executive Office - Homeless Initiative (CEO-HI) will be responsible for implementing and administering ERF-3R because CEO-HI coordinates large-scale encampment resolutions through the Pathway Home program. CEO-HI's role is to plan and resource encampment resolutions using an evidence-based framework, tested protocol, detailed contracts, funding agreements, and a thoughtful unified command infrastructure. CEO-HI leverages Measure H funding to expedite and support housing operations for municipal encampments and fosters effective communications about encampment resolution efforts with key stakeholders, elected officials, and the general public. CEO-HI has a solid track record of managing complex homelessness projects and grants, including Project Roomkey, Project Homekey, and most recently the Pathway Home program itself. Within six months of launching the project, CEO-HI has conducted 10 Pathway Home operations and is now serving over 440 people from communities across LA County, including Baldwin Park, Compton, East Gardena, Hawthorne, Inglewood, Lennox, Long Beach, Los Angeles, Lynwood, Pomona, Walnut Park, and West Rancho Dominguez. These operations are all documented and viewable on the Pathway Home website, and CEO-HI organizes service connection events after all Pathway Home and Inside Safe operations to ensure all encampment residents are connected to the services and supports they need to achieve housing stability.

Table 3: Key Staff

Identify all staff positions (e.g. administrative, programmatic, development etc.) which are integral to this

ERF project and to achieving the proposal's outcomes. For each position include the title, whether the position is filled or vacant, the approximate fulltime equivalent (FTE) of the position dedicated to the ERF project, whether the position is funded through ERF-3-R and/or Leveraged (i.e.non-ER-3-R) funds, and a brief description of the duties. Please provide responses in Table 3 below.

Title	Currently Filled Position?	FTE of Staffing for This Proposal	Funded by ERF-3-R and / or Leveraged Funds?	Brief Description of Duties
Senior Advisor (LAHSA)	Yes <small>Yes/No</small>	1 (50%) <small># FTE</small>	Leveraged Funds <small>ERF/Lev/Both</small>	Oversee ERF implementation, monitor progress, spenddown, and reporting.
Program Coordinators (LAHSA)	No <small>Yes/No</small>	2 FTE <small># FTE</small>	ERF-3-R <small>ERF/Lev/Both</small>	Match IH providers to housing navigators, ensure clients receive CM; and ensure TLS utilization. Monitor best practices, engage community, data management, and reporting.
Residential Advocates (LAHSA)	No <small>Yes/No</small>	2 FTE <small># FTE</small>	ERF-3-R <small>ERF/Lev/Both</small>	These positions will be used to support the overall placement of participants in motels and ML units when on-site support is necessary beyond the role of the Service providers.
Senior Manager (CEO-HI)	Yes <small>Yes/No</small>	0.14 FTE <small># FTE</small>	Leveraged Funds <small>ERF/Lev/Both</small>	Leads CEO-HI's Local Jurisdiction Coordination and Support Division, which oversees all Municipal Relations and Pathway Home Encampment Resolution efforts.

Principal Analyst (CEO-HI)	Yes Yes/No	0.56 # FTE	Leveraged Funds ERF/Lev/Both	Manages and executes responsibilities under this proposal. Focuses on the municipal relations with Cities, COGs, LA Metro, and Unincorporated Area partners, as well as the planning, designing, implementing, and managing Pathway Home operations.
Analyst (CEO-HI)	Yes Yes/No	0.28 # FTE	Leveraged Funds ERF/Lev/Both	Assists with securing the motel occupancy agreements and organizes all RV-related workstreams outlined in this proposal.
Management Secretary (CEO-HI)	Yes Yes/No	0.14 # FTE	Leveraged Funds ERF/Lev/Both	Supports the Local Jurisdictions Coordination and Support team with scheduling and collaboration with ISD on logistics, supplies, transportation, and motel intake.

32. First, describe key partners that will be responsible for implementing this ERF project and achieving the proposal's outcomes (e.g. service providers, public agencies, development entities etc.). Then, describe their role and primary responsibilities for this proposal. Finally, if these entities have managed a complex homelessness project or grant, describe how those experiences informed this proposal. (1500-character limit)

In addition to CalTrans, Metro, and our municipal partners, LAHSA is key to the implementation of this project. As the CoC, LAHSA provides data, information, and expert guidance to inform resolutions. LAHSA maintains the inventory of outreach, interim housing, housing navigation, and time-limited subsidies and the network of contracted providers these efforts depend on. They lead the design and implementation of CES and conduct coordinated outreach to build trusting relationships with unsheltered residents in a variety of locations, including locations identified by Caltrans, connecting them to appropriate housing, health, and mental health services.

Another key partner is the LA County Department of Health Services (DHS), which deploys Multi-Disciplinary Teams (MDT) to conduct outreach to unsheltered residents with complex needs. DHS manages an inventory of shelter and recuperative care beds for high-acuity clients, including motel-based interim housing, as well as the Integrated Case Management Services for PSH residents. DHS also deploys specialists to increase the income of disabled PEH by assisting them with applying for Veteran's benefits, SSI, SSDI, or CAPI.

LA County departments that lead mental health, public health, public works, public safety, animal care, veterans affairs, information technology, logistics support, and social safety net services are integral to all Pathway Home operations and subsequent service connection events envisioned in this proposal.

33. Describe specific examples of how Local Jurisdiction(s) and the CoC have collaborated on the design and implementation of this proposal. (1000-character limit)

LA County co-developed this proposal with LAHSA, the largest CoC in the County, and based on our collaborative design and implementation of the Pathway Home program in jurisdictions across LA County since August 2023. Lessons learned and feedback from the following local jurisdictions have shaped the design and evolution of the Pathway Home program and this proposal: Baldwin Park, Compton, East Gardena, Hawthorne, Inglewood, Lennox, Long Beach, Los Angeles, Lynwood, Pomona, Walnut Park, and West Rancho Dominguez. LA County directly briefed the City of LA and LA Metro, and we developed a one-pager and briefed the Gateway Cities Council of Government on the development of this proposal since the Gateway Cities COG represents six incorporated cities impacted by the proposal. Feedback from all partners has been incorporated into this proposal.

Applicants may upload evidence of cross-jurisdictional collaboration such as MOUs, letters of support, or interagency agreements etc. in the field immediately below.

Optional Upload: Evidence of Cross-Jurisdictional Collaboration

ERF-3R-Letter of Support-City of Los Angeles-Mayor Karen Bass.docx.pdf

ERF-3R Letter of Support - City of Norwalk.pdf

ERF-3R Letter of Support-City of South Gate.pdf

34. Identify any entities that have a right to and/or control of the property upon which the encampment site resides. Describe how applicant has engaged with these entities and confirm that each of these entities has committed to allowing the implementation of this proposal. (1000-character limit)

The encampment is the 105 corridor/Metro C-Line, where people are living in the riverbeds and taking refuge near the freeway where it crosses the LA and San Gabriel Rivers and where multiple LA Metro stations are co-located. Therefore, this encampment includes a significant amount of property owned by the State of California and LA Metro. The encampment also includes property owned and maintained by the County of Los Angeles in Unincorporated West Athens, Unincorporated Willowbrook, and along the Los Angeles and San Gabriel Riverbeds near Interstate 105. The encampment also includes property owned and maintained by seven incorporated cities in Supervisory Districts 2 and 4, including the Cities of Bellflower, Downey, Los Angeles, Lynwood, Norwalk, Santa Fe Springs, and South Gate. LA Metro partners and incorporated cities were engaged directly and through our routine engagement with the Gateway Cities Council of Government, and letters of support are included in this application.

Accelerated Timeline

35. How is your community currently supporting and / or engaging with people residing within the prioritized encampment? (1000-character limit)

Street Outreach teams that currently engage in each zone work with each resident on a housing and services plan. These plans depend on the stated needs of the client, and Interim Housing offers a 'menu' of options that does not yet include the motel-based Interim Housing offered through Encampment Resolution. Once an operation date is set, and teams provide details, that option is included, and services are focused on what will make an interim housing stay most successful: document readiness and attained referrals to supportive services. As the operation date approaches and is within two weeks, outreach teams provide daily visits, and messaging to PEH that the area will be an encampment resolution effort and discuss alternative housing options. Discussions of housing options, the location, and the support provided will be discussed at each interaction to ensure PEH can make an informed decision and have a plan with their outreach Point of Contact to attain it.

36. If this proposal is selected, in advance of receiving funding, what steps will your community take to support the people living in the encampment and swift implementation of this proposal? (1000-character limit)

Outreach engagements with PEH in the zone are coordinated by an Outreach Coordinator, who facilitates the creation of a BNL. This list functions as a census of PEH who are part of the community that constitute the encampment, and a case planning tool for the PEH that currently reside there. This is essential for both ongoing support and rapid implementation. For support, the BNL has fields for barriers and disabling conditions that the Outreach Coordinator can address through collaboration with Street Medicine and Mobile Clinic. Coordinators also host case conferencing sessions for both outreach teams and key partners, including the Department of Mental Health and Department of Health Services, to facilitate that collaboration. For implementation, the Outreach Coordinator knows which client is working with which outreach staff. This facilitates the flow of messaging in the lead-in to the encampment resolution, and the assignment of teams to specific roles on the day of.

Table 4: Project Timeline

Cal ICH should be able to use the project timeline to understand the general parameters of the project and how it will be implemented.

This Standardized Project Timeline Template will not perfectly capture every nuance - that's Ok. However,

applicants are strongly encouraged to provide incremental milestones for achieving the interim shelter and permanent housing goals set out in the proposal. For projects that include interim shelter and/or permanent housing development, the timeline should include major development milestones.

Where there is ambiguity, conflict, or silence, use your judgment.

Date	Milestone	Category	Additional Detail for Milestone
4/1/2024	Planning Phase for the first cohort in Zones 1, 4, and 6	Planning	Q1 milestones for the first cohort in Zones 1, 4, and 6 include community readiness assessment, encampment resident requirements, resource acquisition & inspection.
7/1/2024	Planning Phase for the first cohort in Zones 2, 3, and 5; Operations and Stabilization Phase for the first cohort in Zones 1, 4, and 6.	Planning, Operations, and Stabilization	Q1 milestones for the first cohort in Zones 2, 3, and 5 include: community readiness assessment, identifying resident requirements, resource acquisition & inspection, resource mobilization, outreach, safety, security, storage, property disposition, transportation, interim housing intake, communications, service connection events, case conferencing, permanent housing exits through housing navigation, master leasing, and TLS, and data processing and reporting.

10/1/2024

Operations, Stabilization, and Mitigation phases for the first cohorts in Zones 2, 3, and 5

Planning and Operations

Q2 milestones for the first cohort in Zones 2, 3, and 5 include: resource mobilization, resident outreach & engagement, safety, security, storage, property disposition, and transportation, interim housing intake, communications; service connection events, client cast conferencing, permanent housing exits through housing navigation, master leasing, and TLS, and data processing and reporting. It also includes the maintenance and repair of the encampment site and outreach to mitigate repopulation.

1/2/2025

Planning and Operations for the second cohort in Zones 1, 4, and 6.

Planning and Operations

Q3 milestones for the second cohort in Zones 1, 4, and 6 include: identifying resident requirements, resource acquisition & inspection, resource mobilization, outreach & engagement, safety, security, storage, property disposition, transportation, interim housing intake, and communications.

4/1/2025

Planning Phase for the second cohort in Zones 2, 3, and 5; Operations and Stabilization Phases for the second cohort in Zones 1, 4, and 6.

Planning, Operations, and Stabilization

Q4 milestones for the second cohorts in all zones include: identifying resident requirements, resource acquisition & inspection, resource mobilization, outreach, safety, security, storage, property disposition, transportation, interim housing intake, communications, service connection events, case conferencing, permanent housing exits through housing navigation, master leasing, and TLS, and data processing and reporting.

7/1/2025

Operations, Stabilization, and Mitigation phases for the second cohorts in Zones 2, 3, and 5

Operations, Stabilization, and Mitigation

Q1 milestones for the second cohort in Zones 2, 3, and 5 include: resource mobilization, resident outreach & engagement, safety, security, storage, property disposition, and transportation, interim housing intake, communications; service connection events, client case conferencing, permanent housing exits through housing navigation, master leasing, and TLS, and data processing and reporting. It also includes the maintenance and repair of the encampment site and outreach to mitigate repopulation.

10/1/2025	Planning, Operations, Stabilization & Mitigation phases for the third cohorts in all zones.	Planning, Operations, Stabilization, Mitigation	Q2 milestones for the 3rd cohort in all zones include: identifying resident requirements, resource acquisition, inspection, mobilization, resident engagement, safety, security, storage, property disposition, & transportation, IH intake, communications; service connection events, client case conferencing, permanent housing exits through HN, master leasing, and TLS, and data processing & reporting. It also includes the maintenance & repair of the site and outreach to mitigate repopulation.
7/1/2026	Demobilization of Interim Housing sites	Demobilization	The demobilization of interim housing from up to seven motel sites would commence during this time period as all clients are exited to permanent housing.

Table 5: Projected Milestones

Answer the following questions in relationship to January 31, 2024. Cal ICH assumes disbursement will occur approximately 3-6 months after January 31, 2024.

Please provide responses in the table below including the month and year. (15-character limit for each cell)

Outreach to the people residing in the prioritized encampment site began / will begin mm/yyyy.

This proposal will reach full operating capacity in mm/yyyy.

The first planned exit of a person or household from the prioritized encampment will occur in mm/yyyy.

The last planned exit of a person or household from the prioritized encampment will occur in mm/yyyy.

06/2024

12/2024

07/2024

02/2026

CERTIFICATION

Before certifying, applicants are strongly encouraged to review the NOFA.

I certify that all information included in this Application is true and accurate to the best of my knowledge.

Subject: Letter of Commitment for the Los Angeles County Homeless Initiative (CEO-HI)'s Application for Funding through the Encampment Resolution Funding Program (ERF-3R)

Dear Chief McKendry:

On behalf of the California Department of Transportation (Caltrans) I want to express our partnership with the Los Angeles County Homeless Initiative (CEO-HI)'s application to the Encampment Resolution Program. We are supportive of Los Angeles County's decision to focus their effort on serving an anticipated 254 people in one encampment across six zones that are primarily on the State Right-of-Way along the Interstate 105 corridor. The six identified zones cover an encampment area spanning the cities of Downey, Norwalk, Santa Fe Springs, Bellflower, Lynwood, South Gate, Los Angeles and the unincorporated areas of Willowbrook and West Athens. This proposal seeks to immediately decrease the number of individuals experiencing homelessness in Los Angeles County by expecting to move 588 people living in the identified encampments into interim housing, of which 447 are anticipated to move into permanent housing by the end of the grant period.

Interstate 105 forms a key transit artery in southern Los Angeles County, which has become a magnet for encampments. Caltrans has removed 27 encampments along Interstate 105 over the last Calendar Year. We often see Persons Experiencing Homelessness returning to encampments after the conclusion of removal operations. Los Angeles County Homeless Initiative (CEO-HI)'s staff has worked in close collaboration with Caltrans District 7 to identify the encampment locations being addressed in this proposal. The encampment zones include communities that are among the most disproportionately impacted by homelessness and poverty in all of Los Angeles County, particularly zones in unincorporated West Athens and Willowbrook along the 105.

Los Angeles County Homeless Initiative (CEO-HI)'s proposal is informed by years of experience serving the unhoused, as well as new innovations in delivering much needed permanent housing like the Pathway Home program. ERF funds will be used for targeted outreach, engagement, and subsidize critical permanent housing. Los Angeles County Homeless Initiative (CEO-HI)'s plans to leverage an existing 72 interim housing units, 131 new interim housing units, as well as 382 new permanent housing subsidies and 100 master leasing opportunities that will be prioritized for people in the identified encampment.

Caltrans is committed to only act on the encampment sites in the proposal in collaboration with Los Angeles County, and with at least two weeks' notice to the ERF grantee (unless critical circumstances exist when an encampment poses and imminent threat to life, health, safety or infrastructure and must be immediately addressed).

We are eager to partner with Los Angeles County Homeless Initiative (CEO-HI) to serve unhoused community members living along the Interstate 105 corridor in the cities of Downey, Norwalk, Santa Fe Springs, Bellflower, Lynwood, South Gate, Los Angeles and the unincorporated areas of Willowbrook and West Athens. I fully support Los Angeles County's application for the State of California Encampment Resolution Funding Grant. These State resources will be instrumental in serving Persons Experiencing Homelessness along State Right-of-Way in Los Angeles County with dignity in moving them into permanent housing. If additional information is needed, please contact Charles Isaac at (323) 303-9225.

Sincerely,

Godson Okereke

**RE: Support for County of Los Angeles/Los Angeles Homeless Services
Authority Application to Encampment Resolution Funding Program, Round
3, Rolling Application**

Dear Secretary Ghaly and Acting Secretary Egawa,

I write in support of the County of Los Angeles and the Los Angeles Homeless Services Authority's (LAHSA) joint application to the California Interagency Council on Homelessness' Encampment Resolution Funding (ERF) Program. The City of Los Angeles routinely partners with the County and LAHSA on the City's Inside Safe encampment resolution initiative. This proposal is another example of our jurisdictions locking arms and responding to our homelessness crisis with the requisite urgency.

The joint ERF application focuses on an encampment that includes six zones along the Interstate 105/Metro C Line corridor, where people experiencing unsheltered homelessness are living in the riverbeds and taking refuge near the freeway where it crosses the Los Angeles and San Gabriel Rivers and where multiple Metro stations are co-located. Two of the six zones are adjacent to the City of Los Angeles and the unhoused residents surviving at the encampment will be positively impacted by a housing-focused resolution, as will our surrounding community.

We further acknowledge that the ERF joint application leverages the County's Pathway Home program as the model for responding to the housing crisis for individuals residing at this encampment. Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities, including Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, and Long Beach, on housing-focused encampment resolution. The City

of Los Angeles is eager to continue our partnership with the County's Pathway Home program under its unified command structure model, and we are committed to leveraging our community expertise, local authorities, and municipal resources to support an ERF-funded Pathway Home operation in city areas that border this encampment.

For these reasons, I ask for your full and fair consideration of this joint ERF application by the County of Los Angeles and LAHSA. Thank you for your attention to this matter.

Sincerely,

KAREN BASS

Mayor

City of Los Angeles

Meghan Marshall
Executive Officer
California Interagency Council on Homelessness (Cal-ICH)
801 Capitol Mall, Suite 601
Sacramento, CA 95814

Dear Cal-ICH Leadership:

The City of Norwalk is pleased to support the County of Los Angeles and the Los Angeles Homeless Services Authority (LAHSA) in their joint submission of an Encampment Resolution Funding Program, Round 3, Rolling (ERF-3-R) Application.

The joint ERF-3-R application focuses on an encampment that includes six zones along the 105 corridor/Metro C-Line, where people experiencing unsheltered homelessness are living in the riverbeds and taking refuge near the freeway where it crosses the Los Angeles and San Gabriel Rivers and where multiple Los Angeles Metro stations are co-located. At least one of these zones is within or adjacent to the City of Norwalk and the unhoused residents surviving at the encampment will be positively impacted by a housing focused resolution, as will our surrounding community.

We further acknowledge that the ERF-3-R joint application leverages Los Angeles County's Pathway Home program as the model for responding to the housing crisis for individuals residing at this encampment. Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities - like Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, Long Beach, and the City of Los Angeles - on housing focused encampment resolution. The City of Norwalk is eager to partner with the Pathway Home program under its unified command structure model, and we are committed to leveraging our community expertise, local authorities, and municipal resources to support an ERF-3-R-funded Pathway Home program.

Thank you for considering this joint application, which has the support of our community.

Sincerely,

Jesus Gomez

Sacramento, CA 95814

Dear Cal-ICH Leadership:

The Compton Unified School District is pleased to support the County of Los Angeles and the Los Angeles Homeless Services Authority (LAHSA) in their joint submission of an Encampment Resolution Funding Program, Round 3, Rolling (ERF-3-R) Application ("Application").

The Application focuses on an encampment that includes six zones along the 105 corridor/Metro C-Line, where people experiencing unsheltered homelessness are living in the riverbeds and taking refuge near the freeway where it crosses the Los Angeles and San Gabriel Rivers and where multiple Los Angeles Metro stations are co-located. At least one of these zones is within or adjacent to the Compton Unified School District's facilities, specifically the former Lincoln Elementary School site, which is currently the subject of an Exclusive Negotiating Agreement with Charles R. Drew University/Martin Luther King Hospital Wellness Development for a proposed joint development campus, housing, and recreational project; and the unhoused residents surviving at the encampment will be positively impacted by a housing focused resolution, as will our surrounding community and the students at the Compton Unified School District.

We further acknowledge that the Application leverages LA County's Pathway Home program as the model for responding to the housing crisis for individuals residing at this encampment. Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities - like Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, Long Beach, and the City of Los Angeles - on housing focused encampment resolution. The Compton Unified School District is eager to support the Pathway Home program under its unified command structure model, and we are committed to leveraging our community expertise, local authorities, and history of support for causes addressing homelessness in our community and student body to support an ERF-3-R-funded Pathway Home operation at this encampment.

Thank you for considering this joint application, which has the support of our community.

Sincerely,

A handwritten signature in blue ink that reads "S.Soto".

Subject: Letter of Commitment for the Los Angeles County Homeless Initiative (CEO-HI)'s Application for Funding through the Encampment Resolution Funding Program (ERF-3R)

Dear Chief McKendry:

As the Supervisor for the 4th District, my office is pleased to support the County of Los Angeles and the Los Angeles Homeless Services Authority (LAHSA) in their joint submission of an Encampment Resolution Funding Program, Round 3, Rolling (ERF-3R) Application.

The joint ERF-3R application focuses on an encampment that includes six zones along the 105 corridor/Metro C-Line, where people experiencing unsheltered homelessness are living in the riverbeds and taking refuge near the freeway where it crosses the LA and San Gabriel Rivers, and where multiple LA Metro stations are co-located. Four of these zones are within communities of my Supervisorial District and the unhoused residents surviving at the encampment will be positively impacted by a housing focused resolution, as will our surrounding communities.

The ERF-3-R joint application leverages LA County's Pathway Home program as the model for responding to the housing crisis for individuals residing at this encampment. Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities in the 4th District - like Lynwood, Long Beach, Walnut Park, and the City of Los Angeles - on housing focused encampment resolution. I am eager to continue partnering with the Pathway Home program under its unified command structure, and we are committed to leveraging our community expertise, local authorities, and oversight capacity to support an effective ERF-3-R-funded Pathway Home operation at this encampment.

Thank you for considering this joint application.

RE: Letter of Support - Los Angeles County Homeless Initiative's Application for Funding through the Encampment Resolution Funding Program

Dear Chief McKendry:

I am pleased to support the County of Los Angeles (County) and the Los Angeles Homeless Services Authority in their joint submission of an Encampment Resolution Funding Program, Round 3, Rolling (ERF-3R) application.

The joint ERF-3R application focuses on an encampment that includes six zones along the 105 Freeway corridor/Metro C-Line. In this area, individuals experiencing unsheltered homelessness are living in riverbeds and seeking refuge near the freeway intersections between the Los Angeles and San Gabriel Rivers, as well as near multiple Los Angeles Metro stations. Two of these zones are within unincorporated communities of the Second District and the unhoused residents residing at the encampment will be positively impacted by a housing focused resolution, as will our surrounding community.

The ERF-3-R joint application leverages the County's Pathway Home program as the model for responding to the housing crisis for individuals residing at this encampment, including individuals residing in unsafe Recreational Vehicles. Since launching in August 2023, the Pathway Home program has a strong track record of coordinating with unincorporated areas and local incorporated municipalities in the Second District - like Compton, Culver City, East Gardena, Hawthorne, Inglewood, Lennox, West Rancho Dominguez, Walnut/Firestone Park, and the City of Los Angeles - on housing focused encampment resolution. My office and I are eager to continue partnering with the Pathway Home program under its unified command structure, and we are committed to leveraging our community expertise, local authorities, and oversight capacity to support an effective ERF-3-R funded Pathway Home program at this encampment.

Chief Jeannie McKendry

Dear Cal-ICH Leadership:

Charles R. Drew University of Medicine and Science (CDU) is pleased to support the County of Los Angeles and the Los Angeles Homeless Services Authority (LAHSA) in their joint submission for an Encampment Resolution Funding Program, Round 3, Rolling (ERF-3-R) Application.

The joint ERF-3-R application focuses on encampments that include six zones along the 105 corridor/Metro C-Line, where people experiencing unsheltered homelessness are living in riverbeds and/or taking refuge near the freeway where it crosses the LA and San Gabriel Rivers, and where multiple LA Metro stations are co-located. At least one of these zones is adjacent to CDU. We believe that the unhoused residents surviving at these encampments will be positively impacted by a housing-focused resolution, as will our surrounding community.

We further acknowledge that the ERF-3-R joint application leverages LA County's Pathway Home program as the model for responding to the housing crisis for individuals residing at these encampments. Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities - like Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, Long Beach, and the City of Los Angeles - on a housing-focused encampment resolution. CDU strongly supports the Pathway Home program efforts and its unified command structure model.

Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities - like Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, Long Beach, and the City of Los Angeles - on housing focused encampment resolution. The City of Santa Fe Springs is eager to partner with the Pathway Home program under its unified command structure model, and we are committed to leveraging our community expertise, local authorities, and municipal resources to support an ERF-3-R-funded Pathway Home operation at this encampment.

Thank you for considering this joint application, which has the support of our community.

Sincerely,

René Bobadilla, P.E.

**RE: Support for County of Los Angeles/Los Angeles Homeless Services
Authority Application to Encampment Resolution Funding Program, Round
3, Rolling Application**

Dear Secretary Ghaly and Acting Secretary Egawa,

I write in support of the County of Los Angeles and the Los Angeles Homeless Services Authority's (LAHSA) joint application to the California Interagency Council on Homelessness' Encampment Resolution Funding (ERF) Program. The City of Los Angeles routinely partners with the County and LAHSA on the City's Inside Safe encampment resolution initiative. This proposal is another example of our jurisdictions locking arms and responding to our homelessness crisis with the requisite urgency.

The joint ERF application focuses on an encampment that includes six zones along the Interstate 105/Metro C Line corridor, where people experiencing unsheltered homelessness are living in the riverbeds and taking refuge near the freeway where it crosses the Los Angeles and San Gabriel Rivers and where multiple Metro stations are co-located. Two of the six zones are adjacent to the City of Los Angeles and the unhoused residents surviving at the encampment will be positively impacted by a housing-focused resolution, as will our surrounding community.

We further acknowledge that the ERF joint application leverages the County's Pathway Home program as the model for responding to the housing crisis for individuals residing at this encampment. Since launching in August 2023, Pathway Home has a strong track record of coordinating with unincorporated areas and local incorporated municipalities, including Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, and Long Beach, on housing-focused encampment resolution. The City

of Los Angeles is eager to continue our partnership with the County's Pathway Home program under its unified command structure model, and we are committed to leveraging our community expertise, local authorities, and municipal resources to support an ERF-funded Pathway Home operation in city areas that border this encampment.

For these reasons, I ask for your full and fair consideration of this joint ERF application by the County of Los Angeles and LAHSA. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Karen Bass". The signature is fluid and cursive, with the first name "Karen" being larger and more prominent than the last name "Bass".

Meghan Marshall
Executive Officer
California Interagency Council on Homelessness (Cal-ICH)
801 Capitol Mall, Suite 601
Sacramento, CA 95814

Dear Cal-ICH Leadership:

The Gateway Cities Council of Governments is pleased to support the County of Los Angeles and the Los Angeles Homeless Services Authority (LAHSA) in their joint submission of an Encampment Resolution Funding Program, Round 3, Rolling (ERF-3-R) Application.

The joint ERF-3-R application focuses on encampments that include six zones along the 105 corridor/Metro C-Line, where people experiencing unsheltered homelessness are living in the riverbeds and taking refuge near the freeway crossing the LA and San Gabriel Rivers and where multiple LA Metro stations are co-located. All of these zones are within six of our member cities: Bellflower, Downey, Norwalk, Lynwood, Santa Fe Springs, and South Gate. The unhoused residents surviving at the encampments will be positively impacted by a housing-focused resolution, and our surrounding communities will also benefit.

We further acknowledge that the ERF-3-R joint application leverages LA County's Pathway Home program to respond to the housing crisis for individuals residing at these encampments. Since launching in August 2023, Pathway Home has coordinated with unincorporated areas and local incorporated municipalities – such as Hawthorne, Inglewood, Pomona, Lynwood, Compton, Culver City, Baldwin Park, El Monte, Long Beach, and the City of Los Angeles - on housing-focused encampment resolution.

The Gateway Cities Council of Governments will partner with the Pathway Home program under its unified command structure model, and we are committed to leveraging our community expertise, local authorities, and municipal resources to support an ERF-3-R-funded Pathway Home operation at these encampments.
