Part 1: Regional Identification and Contracting Information

Steps to complete this section:

- 1. Select the CoC Region.
- 2. Indicate which of the Eligible Applicants are participating in this HHAP-5 application.
- 3. For each participating Eligible Applicant, you will also be prompted to indicate whether and how the Eligible Applicant intends to contract with the state (i.e., indicate the Administrative Entity for that eligible applicant's HHAP-5 Allocation).

Please select the Continuum of Care region

Humboldt County CoC

Application Participation Guidance:

Cal ICH encourages eligible applicants to apply in collaboration with all eligible applicants in their CoC Region and submit a single Regionally Coordinated Homelessness Action Plan. Applicants may apply together and still receive funds separately.

- Large Cities must apply as part of the regional application with the County and CoC.
- Counties must apply as part of a regional application with the CoC and any overlapping Large Cities.
 - o In a multi-county CoC: Counties **are strongly encouraged to** apply in collaboration with other counties that are served by the same CoC.
- A CoC that serves a single county **must** apply as part of the regional application with the County and any overlapping Large Cities.
- A CoC that serves multiple counties **must either**:

- Apply as part of a regional application with multiple Counties and any overlapping Large Cities: and/or
- Participate in the regional application of each overlapping County and the Large Cities therein.

Contracting Guidance:

Each Eligible Applicant (Large City, County, and CoC) has the discretion to receive their base allocation directly or may designate an Eligible Applicant in their region to serve as their Administrative Entity. This selection will indicate to Cal ICH which Eligible Applicant will enter into contract with the state to receive and administer each Eligible Applicant's HHAP-5 allocation.

The Administrative Entity is responsible for HHAP funds and meeting the terms and conditions of the contract. Broadly speaking, this means administering funds, contracting (when necessary) with subrecipients, and reporting on HHAP-5 dollars and activities to Cal ICH.

- If you plan to contract with the state to receive and administer **only** your (single) HHAP-5 allocation, select: "Will enter into contract with the state to receive and administer their HHAP-5 allocation individually" under the contracting selection.
- If you do not plan to contract with the state and instead plan to identify another participating Eligible Applicant in the region to enter into contract with the state to receive and administer your HHAP-5 allocation, select: "Identify another participating Eligible Applicant in their region to enter into contract with the state to receive and administer their HHAP-5 allocation" under the contracting selection. You will then be prompted to designate the Administrative Entity from a list of eligible applicants in the region.
- If you plan to contract with the state to **receive and administer multiple HHAP-5 allocations** within your region, select "Will enter into contract with the state to receive and administer their HHAP-5 allocation and allocation(s) from other Eligible Applicants in the region" under the contracting selection.

Regional Coordination Narrative - Outreach & Site Coordination

Overall coordination among participating jurisdictions and organizations has and will continue to take place through meetings of the Humboldt Housing and Homelessness Coalition (HHHC), which serves as the Humboldt County Continuum of Care (CoC). The County provides staff and facilitates all broader CoC efforts as the HHHC approved Collaborative Applicant and HMIS Lead. The key street outreach/site coordination partners - the City of Eureka, the County of Humboldt, Redwoods Rural Health Center and Arcata House Partnership are all permanent members of the HHHC Executive Committee (CoC Board), and as such regularly discuss and make decisions on key outreach and site coordination funding, policies, and activities.

In addition, County staff assigned to the CoC work to ensure that all County-managed funding for interim housing and permanent housing options is closely coordinated with CoC-managed funding and priorities. In addition, county staff and HHHC partners meet regularly with their counterparts in the cities regarding funding and operation of interim and permanent housing program. Similarly, county staff work with others at the Department of Health and Human Services, the Planning Department, and the HHHC around joint objectives for developing and operating interim and permanent housing.

System Performance Measures & Improvement Plan

Steps to complete this section:

- 1. Identify the most recent system performance measures for the region.
- 2. Describe the key action(s) the region intends to take to improve each system performance measure.

Guidance:

Cal ICH shall provide each region with system performance measures by CoC, with the exception of the LA region, which will receive data from all four CoCs within LA County. Applicants must enter that data in the corresponding measures fields in the application. Applicants should not adjust the data provided even if the geographic region of the data does not perfectly align with the participating applicant geography of this application.

The application must include **at least one** key action for **each** system performance measure. All columns must be filled out for each action.

For "Funding Type" select one of the options. If you select the blank field, you may type in a unique funding source type.

To add additional actions or racial equity measures, click the appropriate "Add" buttons near the bottom of each table.

Note: While Cal ICH expects most of the disparities listed to be based on race or ethnicity, applicants may identify other populations that are also overrepresented among people experiencing homelessness in the region.

Definitions:

- **Key Actions** may include a brief description of a strategic initiative or step identified to address or improve the specific system performance measure. This can be a policy, program, partnership, target measure, or any other approach which reflects an improvement and delivers positive impact. Provide a clear description of the action and its intended outcome.
- **Lead Entity** should include the name of the regional Eligible Applicant responsible for managing the key action.
- Collaborating Entity/ies may include a group, organization, or jurisdiction within your region working to address or improve the system performance measure. This can be another participating jurisdiction, a system partner, or any organization actively participating in the key action.
- Timeframe should include a target date for completion of the key action.
- Success Measurement Methods may include a systematic approach or tool used to assess the effectiveness and impact of the key action on the system performance measure. This can be quantitative measures, qualitative feedback, or any combination that provides insight into the progress and outcomes pertaining to the key action. Provide a clear description of how you plan to track and report on the success of your key action.

We analyzed the data provided by Cal ICH and found that every racial and ethnic group was overrepresented in exits to permanent housing when compared to their share of the general population as well as their share of the 2022 PIT count as measured by the HUD CoC Analysis tool, with one exception. People who identified as white accounted for 70.4% of exits to permanent housing, but whites were 82.3% of the general population and 80% of the 2022 PIT count.

Equity Improvement Plan

Steps to Complete this Section:

- 1. Identify and describe the key actions the region will take to ensure racial and gender equity in:
 - Service delivery;
 - Housing placements;
 - Housing retention; and
 - o Identify any changes to procurement or other means to affirm equitable access to housing and services for groups overrepresented among residents experiencing homelessness.
- 2. Identify if place-based encampment resolution is occurring in the region and if so, the CoC must describe and provide evidence of collaboration with the cities or counties providing encampment resolution services that addresses how people served through encampment resolution have or will be prioritized for permanent housing within the Coordinated Entry System.

<u>Optional:</u> upload any evidence the region would like to provide regarding collaboration and/or prioritization as it relates to question 2.

Guidance:

Of the four tables below, the first three must include at a minimum one key action to address racial equity and one key action to address gender equity. The fourth and final table must include at least one key action.

To add additional actions, click "Add an Action" at the bottom of the table.

Definitions:

- Key Actions may include a brief description of a strategic initiative or step identified to address or
 improve the inequity. This can be a policy, program, partnership, target metric, or any other
 approach which reflects an improvement and delivers positive impact. Provide a clear description
 of the action and its intended outcome.
- **Lead Entity** should include the name of the regional Eligible Applicant responsible for managing the key action.

• Collaborating Entity/ies may include a group, organization, or jurisdiction within your region working to address or improve the inequity. This can be another participating jurisdiction, a system partner, or any organization actively participating in the key action.

Key Actions the Region Will Take to Ensure Racial and Gender Equity in Service Delivery

Key Action	Lead Entity	Collaborating Entity/ies
Work with partner organizations to diversify and train workforce to meet needs of communities most impacted by housing instability and homelessness. Specifically, the CoC will provide training for service providers, to help administrators and front-line staff understand how they can ensure both racial and gender equity in service delivery.	CoC	County of Humboldt, cities, nonprofits
We will ensure those with lived experience have a role in program design, strategy development, and oversight, and the development of workgroups and trainings related to advancing equity to affirm equitable access to housing and services for racial and ethnic groups, as well as genders overrepresented among residents experiencing homelessness.	CoC	County of Humboldt, cities, nonprofits
We will make "pronoun buttons" for staff to wear that display the staff's pronoun preferences. Some providers have reported that this has helped people experiencing homelessness who do not identify as singularly male or female to be more open to sharing their gender identify. We are concerned that people who identify as something other than singularly male or female are underrepresented in our data because they are reluctant to disclose their true identities, so the hope is that the buttons will lead to better data quality, as well as helping to promote gender equity in service delivery. Key Actions the Region Will Take to Change Procurement or Other Means to Affirm Equitable Access to Housing and Services for Overrepresented Groups Among People Experiencing Homelessness in the Region

Key Action	Lead Entity	Collaborating Entity/ies
The County of Humboldt's purchasing policy as adopted by our Board of Supervisors in 2014, which governs all of our HHAP procurements, provides that "the County shall neither discriminate against, nor give preferential treatment to small, minority or women-owned businesses." Despite this policy, a very large percentage of our contracts have consistently been awarded to organizations that are led by led by, and specifically serving, communities that have been underrepresented and/or poorly served. There are no plans to change this aspect of the purchasing policy at this time.	CoC	County, cities, nonprofits

Is place-based encampment resolution occuring within the region? Yes

The CoC must describe and provide evidence of collaboration with the cities or counties providing encampment resolution services that addresses how people served through encampment resolution have or will be prioritized for permanent housing within the Coordinated Entry System.

Narrative for place-based encampment resolution

The Humboldt County Coordinated Entry System (CES), through its Housing Placement Case Conference Committee, selects clients for housing placement by using all available information to prioritize those with the most severe service needs and greatest barriers to housing for placements. The extent to which people are experiencing unsheltered homelessness is one of the key factors that we use for prioritization, and it has been included in the list of factors that the CES shall consider in the written standards that govern the system since it launched in 2016. The City of Eureka, SoHum Housing Opportunities (our ERF grantees) and all of the other CoC member organizations that provide direct assistance or information and referral services are invited to participate in the Case Conference Committee

Part 3: Funding Plan

Steps to complete this section:

- Identify all Eligible Use Categories the Administrative Entity anticipates using.
- 2. Provide the **dollar amount** budgeted per eligible use category. Again, this must account for 100 percent of the HHAP-5 Allocation(s) the Administrative Entity will be responsible for administering.
- 3. Where applicable, provide the **dollar amount** that will be designated under the Youth Set-Aside from the selected eligible use categories. **Reminder: the youth set-aside must total at least 10% of all monies received.**
- 4. Provide a brief description of activities HHAP-5 funds will support in each selected eligible use category.
- 5. Provide an explanation of how the activities therein align with the state's HHAP-5 priorities to:
 - sustain existing investments towards long-term housing stability and supportive services and
 - prioritize permanent housing solutions.
- 6. Indicate whether the budget proposes to support **ANY** new interim housing solutions outside of the youth set-aside.
- 7. Indicate whether the budget proposes to support new interim housing solutions for youth in excess of 10% of the total HHAP-5 Dollars budgeted
 - o If the Administrative Entity answers "yes" to either 6 or 7, they will be asked to demonstrate dedicated, sufficient resources from other funding sources for long-term housing stability and permanent housing solutions. This entails summarizing total available dollars for preventing and ending homelessness in the region, including the percentage of these resources dedicated to permanent and interim housing solutions, providing the status of five policy actions for each eligible applicant in the region, and demonstrating the need for additional shelter.

Guidance:

Each Administrative Entity must submit a **single** Funding Plan that accounts for the entire HHAP-5 Allocation(s) which the Administrative Entity will be responsible for administering. This includes:

- 100 percent of the HHAP-5 Base allocation(s);
- 100 percent of the HHAP-5 Planning allocation(s); and
- 100 percent of the Initial Supplemental Funding allocation(s).

The youth set-aside must total at least 10% of all monies received.

Administrative costs may not exceed 7% of all monies received.

Up to 1% of all monies received may be budgeted for costs related to the Homeless Management Information System (HMIS). Related costs include HMIS licenses, training, system operating costs, and costs associated with carrying out related activities. Upon agreement between the grantee and the Homeless Management Information System lead entity, the grantee shall transfer the authorized amount of funds directly to the HMIS lead entity.

To add another funding plan for an additional Administrative Entity, click "Add Funding Plan" near the bottom of the page. You will be prompted to provide a specific number of funding plans (1 per Administrative Entity) based on the participation and contracting selections from Part 1: Regional Identification and Contracting Information.

Increased access to RRH should also decrease the length of time people experience homelessness while accessing services, because some people will become housed thanks to these efforts who otherwise would have continued to experience homelessness.

Delivery of Permanent Housing and Innovative **Housing Solutions**

\$1,308,215.82 \$0.00

Capital for permanent housing that serves people experiencing homelessness, including conversion number of of underutilized buildings or existing interim or transitional housing into permanent housing.

Additional units dedicated to the target population will cause the people experiencing homelessness to be lower than it otherwise would have

been, which will cause the number of people accessing services while experiencing homelessness to also be lower than it otherwise would have been, because they will instead be receiving services while housed. This will reduce the unsheltered PIT count because people who otherwise would have been unsheltered will have access to permanent housing. This investment will help more people exit to permanent housing than otherwise would have, due to the increase in the supply of permanent housing dedicated to the target population. This will help reduce the length of time people experience homelessness while accessing services because people will be able to access these

housing units who otherwise would have continued to experience homelessness and likely would have continued to access services. This will reduce the number of people who return to homelessness by increasing the supply of Housing Firstoriented, lowbarrier permanent housing. People who gain access to Housing Firstoriented permanent housing with appropriate services are much less likely to return to homelessness than people who need this intervention but are served by less intensive interventions due to scarce resources. Increasing the supply of housing units dedicated to the target population will help increase successful placements from street outreach by increasing the

supply of housing that people can access directly from the streets, and by increasing the flow through the shelter system, which should make shelter beds more available.

Operating Subsidies-Permanent Housing \$1,962,323.73 \$0.00

Increased investment in operations and maintenance of housing developments dedicated to the target population will help improve the following SPMs: 1a, 1b, 3: By ensuring these developments have adequate funding for operations and maintenance we will ensure that these developments continue to provide housing to the target population, thereby reducing the number of people who would otherwise be experiencing homelessness, including unsheltered homelessness, as well as

reducing the length of time that beneficiaries would otherwise be experiencing homelessness. 4: The continued sustainability of these developments will help increase the number and percentage of exits to permanent housing, because the more dedicated units we have, the more turnover units will become available to the target population. 5: Housing First-dedicated housing units tend to have much lower rates of return homelessness for populations with high barriers to housing, so ensuring these units are well maintained and operational will lead to lower rates of return homelessness, especially by those with severe needs who are

otherwise most likely to return to homelessness. 6: Ensuring that this housing remains part of our response system will increase successful placements from street outreach directly via turnover units, as well as opening up space in shelters that would have been occupied by people who were instead able to access permanent housing.

street outreach programs have a positive impact on the following system performance measures: 1a, 1b: All of our street outreach programs are housingfocused, meaning the goal is to identify those unsheltered individuals and households who have the greatest barriers to housing and vulnerabilities, and engage them in a housingfocused case management program where the primary goals are to obtain interim and permanent housing. In the absence of specific outreach and evidence-based services, these individuals and families are highly likely to continue experiencing homelessness for long periods of time. By focusing our efforts on these long stayers who are least

likely to selfresolve, we can reduce the number of people who would otherwise continue to experience homelessness. These outreach efforts are also critical for helping unsheltered people access permanent and interim housing, which effectively reduces the unsheltered count in SPM 1b. 3: The primary goal of our street outreach programs is to end homelessness for individuals and families experiencing unsheltered homelessness. By conducting specific outreach and providing housingfocused case management, these programs are helping people exit homelessness to permanent housing, thereby increasing the number of exits to permanent housing.

4: Street outreach engagement and case management services are critical for resolving the homelessness of unsheltered individuals. By providing these services, we help people exit homelessness faster than they would without such services, thereby decreasing the average length of time that people experience homelessness. 6: Continuing our street outreach operations will necessarily cause the number of successful placements from street outreach to be higher than it would be if we decreased or stopped conducting street outreach. Street outreach case management and problemsolving services help people experience unsheltered homelessness access shelter and housing.

NOW THEREFORE, in consideration of the foregoing and the mutual promises contained herein, COUNTY and HHHC hereby mutually agree as follows:
