1. Homelessness Response System Gaps Assessment

When determining local funding priorities, it is critical to understand the current gaps in the local homelessness response system. Each community faces unique challenges in reducing and ending homelessness, so an assessment of current resources and understanding the needs yet to be fulfilled is critical to ensuring the effective and efficient use of new resources. This can be done in various ways and can include conducting a community needs assessment, holding local public forums, talking with service providers and people experiencing homelessness, and utilizing [HUD's seven system-level performance measures](#) that help communities gauge their progress in preventing and ending homelessness.

To successfully complete this section of the application, applicants will need to provide the following:

1. A narrative description of the most recent assessment process used to determine local gaps in housing services for persons experiencing homelessness in the applicant's community. Information should include but is not limited to:
 - a. How data collection methods were used to determine gaps (ie: HUD's homeless Point-in-Time count, Continuum of Care Housing Inventory Count, Longitudinal Systems Analysis, and Stella tools, HMIS Annual Performance Reports for Emergency Shelter (ES), Transitional Housing (TH), Rapid Rehousing (RRH), and Permanent Supportive Housing (PSH), as well as any recently conducted local needs assessments);

Homelessness Response System Gaps Question 1a - Begin Answer
Representatives from Yuba County, Sutter County, and the Continuum of Care (CoC-524) hosted ad-hoc stakeholder meetings on January 6 and January 20, 2021. The initial meeting included the CoC Board of Directors and staff, Homeless Project leadership from each County, leads for HMIS and Coordinated Entry, Housing Providers, Street Outreach teams, and a representative with lived experience. At the January 6 meeting, the attendees discussed ways to engage additional partners, including those from the Hmong Outreach Center, Latino Outreach Center, Western Farmworkers Association, Feather River Tribal Council, and Emmanuel Faith Tabernacle. Contact was made with each of the additional organizations, and invitations were sent to the January 20 meeting.

Documents were distributed prior to the meetings, and included the most recent Point in Time Counts from 2019 and 2020, the 2020 Housing Inventory Count, and the CoC's 2020 System Performance Measures. An analysis template was prepared, to

organize pertinent information and determine areas that indicate gaps in the overall system. At the meeting on January 6, an analysis of the current housing landscape was conducted using the Housing Inventory Count and other resources. The stakeholders in attendance identified current capacity for emergency shelter beds, shelter or housing vouchers, treatment programs, shared housing, and other housing units that target persons exiting homelessness. Where information was missing, attendees were assigned to make contact with providers or obtain the data from HMIS prior to the January 20 meeting.

Once information on the shelter and housing landscape was complete, current HMIS data was reviewed, and total numbers in the indicated special populations were entered into the template. As part of the process, the group worked together to identify the most appropriate housing interventions for each special population. By correlating the data, the team was able to identify at a glance significant areas of shelter and housing need.

In addition to the ad-hoc stakeholder group, there is a committee that is focused on one of our regional strategic priorities: Providing Consistent, Accurate Information. This committee meets every other month to review data entry processes and quality, resolve data quality errors with HMIS agencies, and provide monthly reports to the community and the CoC Board of Directors. This group has been responsible for ongoing communication surrounding homelessness data, and will take on the role of facilitating an annual gaps analysis with a cross section of community members, including those who participated in the initial meetings, as listed above.

In November 2020, this committee completed a preliminary analysis on the impacts of homelessness among the various communities of color within the jurisdiction. This was done by extracting race and ethnicity data from the 2019 Point in Time (PIT) Count (Sheltered and Unsheltered) and the 2020 PIT Count (Sheltered only). Because data for the CoC contains information for both Sutter and Yuba Counties, the data was filtered, to indicate which county the client referred to as their primary residence. The percentages were calculated based on the total surveys conducted that met the county criteria. Percentages were then compared to Census data to identify disparities as detailed below.

The findings from the stakeholder meetings and committee meetings are reviewed by the CoC and County leadership in order to make data-driven decisions regarding priorities for funding, future projects, and capacity development. These priorities and projects are outlined on a yearly basis for inclusion in strategic planning activities, and are reviewed regularly by the CoC Board of Directors and Yuba County's Homeless and Housing Project Manager. In

order to assess progress towards filling gaps, data is reviewed at least annually, and an assessment of progress towards identified goals is completed as detailed in Section 4.

While Yuba County, Sutter County, and the CoC have made collaborative progress in the area of gaps analysis and prioritizing projects to fill gaps, assistance from the BCSH is welcomed in this area. Each entity recognizes the limits to internal resources as well as the importance of engaging key stakeholders in these exercises. Working with an external source who has expertise in gaps analysis will assist us in making these important regional decisions.

Homelessness Response System Gaps Question 1a - End Answer

- b. How people with lived experience of homelessness had ongoing meaningful and purposeful opportunities to participate in and inform the most recent gaps assessment and how they have meaningful opportunities to inform all levels of system planning over time;

Homelessness Response System Gaps Question 1b - Begin Answer

See narrative above

Homelessness Response System Gaps Question 1b - End Answer

- c. How organizations that have historically served communities of color but may not have previously participated formally in the CoC and may not be a part of the homelessness provider community had meaningful and purposeful opportunities to participate in and inform the most recent gaps assessment and how they will be engaged in system planning over time;

Homelessness Response System Gaps Question 1c - Begin Answer

See narrative above

Homelessness Response System Gaps Question 1c - End Answer

- d. How gaps were assessed for special populations such as families, youth, victims of domestic violence, seniors, persons who have been convicted of a crime, persons with a disability, persons who are chronically homeless, persons with HIV/AIDS, persons who are LGBTQ, veterans, persons with limited English proficiency, and persons who are undocumented;

Homelessness Response System Gaps Question 1d - Begin Answer

See narrative above

Homelessness Response System Gaps Question 1d - End Answer

- e. How racial or ethnic disparities in the delivery of homeless services were assessed;

Homelessness Response System Gaps Question 1e - Begin Answer

See narrative above

Homelessness Response System Gaps Question 1e - End Answer

- f. How frequently gaps assessments are conducted;

Homelessness Response System Gaps Question 1f - Begin Answer

See narrative above

Homelessness Response System Gaps Question 1f - End Answer

- g. How findings are used to make informed decisions for funding projects within the community; and

Homelessness Response System Gaps Question 1g - Begin Answer

See narrative above

Homelessness Response System Gaps Question 1g - End Answer

- h. How the applicant will conduct ongoing system performance evaluation to ensure the impact of HHAP-2 funds throughout the spending period and determine if adjustments are needed to address gaps in the homelessness response system.

Homelessness Response System Gaps Question 1h - Begin Answer

The findings from the stakeholder meetings and committee meetings are reviewed by the CoC and County leadership in order to make data-driven decisions regarding priorities for funding, future projects, and capacity development. These priorities and projects are outlined on a yearly basis for inclusion in strategic planning activities, and are reviewed regularly by the CoC Board of Directors. In order to assess progress towards filling gaps, data is reviewed at least annually, and an assessment of progress towards identified goals is completed.

Homelessness Response System Gaps Question 1h - End Answer

2. The most recent gaps assessment that was conducted and the date in which it was completed. Reports can be attached, but all applicants must summarize main findings within this section. Reports submitted without a summary will not be accepted. Summaries must include, but are not limited to:
- a. Current number of people experiencing homelessness in the community including demographic information, and the existing programs and funding which address homelessness within the jurisdiction;

Homelessness Response System Gaps Question 2a - Begin Answer

The most recent gaps assessment was conducted using data obtained in the year 2020 and the first half of January 2021, and was initiated on January 6, 2021, with a subsequent meeting scheduled for January 20, 2021. The information utilized indicates the following:

- 1,693 individuals are homeless and active in the HMIS system, on 1/11/21
 - o 1,221 of those are adults, and 472 are children
 - o 64 are veterans
 - o 402 are chronically homeless
 - o 91 are homeless youth (age 18-24)
 - o The ratios of men to women are nearly 1:1 with a very small difference
 - o 296 are age 55 and older
 - o 379 are under age 12 (182 of those are under age 5)
 - o Other data is available in attached report
- Existing programs and funding sources in Yuba County includes CDSS projects (HSP, HDAP, Home Safe, and Bringing Families Home) and CMSP Local Indigent Care Needs funding. These sources support the full continuum of care necessary to assist someone from their state of unsheltered homelessness, through interim shelter, rapid rehousing, and finally, sustained permanent housing. Additional resources through Housing and Community Development and the Regional Housing Authority assist homeless youth with housing navigation and housing vouchers. The funding through the County is able to provide assistance to each type of household listed above, leaving no sub-population unserved.
- Additional programs and funding sources are listed in the Local Investment Plan, attached to this application. The region's gaps assessment is in the early stages of completion and does not include full analysis at this time. Our team is committed to moving this project forward to glean a fuller understanding of the gaps in services and outcomes for special populations and people of color. We welcome technical assistance from the BCSH in this area.

Homelessness Response System Gaps Question 2a - End Answer

- b. Data and qualitative information showing any gaps or disparities in access to services, delivery of services, and housing placement and housing retention outcomes for special populations such as families, victims of domestic violence, seniors, youth and young adults, persons who have been convicted of a crime, persons with a disability, persons who are chronically homeless, persons with HIV/AIDS, persons who are LGBTQ, veterans, persons with limited English proficiency, and persons who are undocumented;

Homelessness Response System Gaps Question 2b - Begin Answer

Identifying the total number of clients currently needing each service is difficult at best. To estimate totals, we considered the following data, taken from the Coordinated Entry workgroup in HMIS:

- * Current numbers of unsheltered individuals who indicate they're interested in shelter, for interim housing/shelter beds (283);

- * Current sheltered-only individuals who will need move-in and stabilizing rental assistance with income over \$500 (35 people), those enrolled in Rapid Rehousing programs but are not yet housed (420 people), and current sheltered or unsheltered individuals who may be eligible to receive Social Security Disability benefits (75), for rental assistance

- * Those who indicate very high (score of 25 or more) vulnerability, for supportive housing (122),

- * Current number of total unsheltered, for outreach (580),

- * The average number of people who fall into homelessness each year, for prevention (1301).

To truly identify need, the CoC and Counties are considering the above information in addition to current vacancy in each area, and any development plans in progress. The region's gaps assessment is in the early stages of completion and does not include full analysis at this time. Our team is committed to moving this project forward to glean a fuller understanding of the gaps in services and outcomes for special populations and people of color. We welcome technical assistance from the BCSH in this area.

Homelessness Response System Gaps Question 2b - End Answer

- c. Data and qualitative information showing any racial or ethnic disparities in access to services, delivery of services and housing placement and housing retention outcomes of homeless services;

Homelessness Response System Gaps Question 2c - Begin Answer

Identifying the total number of clients currently needing each service is difficult at best. To estimate totals, we considered the following data, taken from the Coordinated Entry workgroup in HMIS:

- * Current numbers of unsheltered individuals who indicate they're interested in shelter, for interim housing/shelter beds (283);

- * Current sheltered-only individuals who will need move-in and stabilizing rental assistance with income over \$500 (35 people), those enrolled in Rapid Rehousing programs but are not yet housed

(420 people), and current sheltered or unsheltered individuals who may be eligible to receive Social Security Disability benefits (75), for rental assistance

- * Those who indicate very high (score of 25 or more) vulnerability, for supportive housing (122),

- * Current number of total unsheltered, for outreach (580),

- * The average number of people who fall into homelessness each year, for prevention (1301).

To truly identify need, the CoC and Counties are considering the above information in addition to current vacancy in each area, and any development plans in progress. The region's gaps assessment is in the early stages of completion and does not include full analysis at this time. Our team is committed to moving this project forward to glean a fuller understanding of the gaps in services and outcomes for special populations and people of color. We welcome technical assistance from the BCSH in this area.

Homelessness Response System Gaps Question 2c - End Answer

- d. Any other disparities that were found in the delivery of homelessness services including rates of successful permanent housing placements, and housing retention rates;

Homelessness Response System Gaps Question 2d - Begin Answer
Identifying the total number of clients currently needing each service is difficult at best. To estimate totals, we considered the following data, taken from the Coordinated Entry workgroup in HMIS:

- * Current numbers of unsheltered individuals who indicate they're interested in shelter, for interim housing/shelter beds (283);

- * Current sheltered-only individuals who will need move-in and stabilizing rental assistance with income over \$500 (35 people), those enrolled in Rapid Rehousing programs but are not yet housed (420 people), and current sheltered or unsheltered individuals who may be eligible to receive Social Security Disability benefits (75), for rental assistance

- * Those who indicate very high (score of 25 or more) vulnerability, for supportive housing (122),

- * Current number of total unsheltered, for outreach (580),

- * The average number of people who fall into homelessness each year, for prevention (1301).

To truly identify need, the CoC and Counties are considering the above information in addition to current vacancy in each area, and any development plans in progress. The region's gaps

assessment is in the early stages of completion and does not include full analysis at this time. Our team is committed to moving this project forward to glean a fuller understanding of the gaps in services and outcomes for special populations and people of color. We welcome technical assistance from the BCSH in this area.

Homelessness Response System Gaps Question 2d - End Answer

- e. Using the Service Gap Analysis Chart below, identify which areas of the local homelessness response system (e.g. shelter, rental subsidies, supportive housing) have gaps in resources based on the needs of people experiencing homelessness in the community.

Homelessness Response System Gaps Question 2e - Begin Answer
 Identifying the total number of clients currently needing each service is difficult at best. To estimate totals, we considered the following data, taken from the Coordinated Entry workgroup in HMIS:

- * Current numbers of unsheltered individuals who indicate they're interested in shelter, for interim housing/shelter beds (283);
- * Current sheltered-only individuals who will need move-in and stabilizing rental assistance with income over \$500 (35 people), those enrolled in Rapid Rehousing programs but are not yet housed (420 people), and current sheltered or unsheltered individuals who may be eligible to receive Social Security Disability benefits (75), for rental assistance
- * Those who indicate very high (score of 25 or more) vulnerability, for supportive housing (122),
- * Current number of total unsheltered, for outreach (580),
- * The average number of people who fall into homelessness each year, for prevention (1301).

To truly identify need, the Counties and the CoC are considering the above information in addition to current vacancy in each area, and any development plans in progress.

Homelessness Response System Gaps Question 2e - End Answer

Table: SERVICE GAP ANALYSIS

	Total # of Clients Currently Needing This Service	Total # of Clients Currently Receiving This Service	Remaining Need
Interim Housing/Shelter Beds	582	299	283
Rental Assistance	676	146	530

Supportive Housing (Permanent)	147	25	122
Outreach	580	51	529
Prevention/Diversion	1301	24	1277

2. Regional Resources Planning

When working within the homelessness system, it is critical to assess the current resources available within the community to ensure any new resources are most effectively and efficiently targeted to best serve people experiencing homelessness within the community. Given the high number of people experiencing homelessness in California and the unprecedented amount of federal and state funds available to address homelessness, HCFC expects applicants to coordinate all available funding to safely shelter and permanently house as many people experiencing homelessness in the applicant's community as possible, with a particular focus on rehousing individuals currently living in Project Roomkey (PRK) sites.

HCFC requires all HHAP-2 applicants to complete a [Homelessness Response Local Investment Plan \(Appendix A\)](#) that lists all regional resources used to address homelessness. The document includes different interventions within the homelessness system. For each intervention, please tell us:

- The funding source(s) used to assist in the delivery of the intervention. If several funding sources are used, please list them in order of highest amount of funding used for the intervention to the lowest;
- If the funding source is covered by more than one applicant (i.e. County and Continuum of Care) please list separately. Do not combine allocations; and
- When referencing units of measurement, please reference service basis unit of measurement. Example: \$500,000 in funding provided RRH to approximately 20 households over XX period of time.

In addition to filling out the [Homelessness Response Local Investment Plan](#) document, applicants must answer the following narrative question that will support the information provided:

1. What efforts are made to coordinate all available local, state and federal funds that can address homelessness in the applicant's community?

Regional Resources Planning Question 1 - Begin Answer

Coordination of local, state, and federal funds to address homelessness is completed through the CoC Board of Directors and by consistent communication between the leadership and homeless project staff in Yuba County, Sutter County, and the CoC. The strategic plan to address homelessness, Forward:YubaSutter, created the framework for prioritizing funding for new projects. Each entity has adopted this framework, and works both independently and collaboratively to further the goals identified in the plan.

As funding is available locally, the CoC prefers to submit super-applications, inviting homeless service providers to apply within the CoC

structured application, in order to maximize the resources and minimize the administrative burden. This allows prioritized projects a greater chance at being funded, and reduces competition between agencies. For a breakdown of all funding sources, please refer to the Local Investment Plan.

Additionally, both Yuba and Sutter Counties communicate regarding state funds that become available to counties, sharing ideas and resources for capacity building and identifying best practices within programs in order to maximize outcomes and reduce duplication of effort.

Regional Resources Planning Question 1 - End Answer

3. HHAP-2 Funding Plans

When planning how to target new HHAP-2 resources, it is essential to do so in direct response to the gaps assessment and current regional investment planning described in Sections 1 and 2. HHAP-2 funding plans must state the specific gaps that will be addressed with these new funds and provide sufficient detail to ensure that any selected projects will effectively meet identified gaps. HCFC expects applicants to clearly understand and identify the intervention types requiring funding prior to initiating their local project selection processes.

Applicants must identify and describe each intervention type they intend to fund with their HHAP-2 grant and how much of their HHAP-2 funding they intend to focus on that intervention type. Applicants must also describe how investing in the requested interventions will meet the previously identified needs of their community.

Intervention Types are broken into six categories: (1) Outreach; (2) Interim Housing; (3) Rental Assistance; (4) Permanent Supportive and Service-Enriched Housing; (5) Diversion and Homelessness Prevention, and (6) Services.

Applicants should utilize the HHAP-2 [Application Guidance](#) document for detailed information on how these interventions can be implemented, how they work together, and how HCFC recommends prioritization and utilization of these interventions.

In addition to providing information on how the applicant intends to utilize their HHAP-2 funds on specific interventions, applicants must also outline the amounts they intend to allocate to the eligible uses that will support the interventions throughout the duration of the grant period.

To successfully complete this section of the application, applicants will need to provide the following:

1. Using the [Funding Plan Template \(Appendix B\)](#) and [Expenditure Plan Template \(Appendix C\)](#), provide detailed information for each of the intervention types and eligible uses being proposed for HHAP-2 funding. **(NOTE: Specific project information for the intervention types identified will be requested at a later date once the local selection process has been completed.)**
2. Describe how the applicant intends to prioritize funding towards local Project Roomkey permanent housing pathways. If an applicant does not intend to prioritize funding in this way, they must explain what other resources have been identified to meet this need locally to ensure that households staying at Project Roomkey sites move to permanent housing and do not return to unsheltered locations or congregate settings.

HHAP-2 Funding Plans Question 2 - Begin Answer

Our region has identified several other available resources to operate our local Project Roomkey site. We also have other resources to assist Roomkey clients as they seek permanent housing. These resources include ESG and ESG-CV, CalWorks, and several other funding sources.

HHAP-2 Funding Plans Question 2 - End Answer

3. Describe the activities budgeted for grant administration. In the applicant's response, describe the overall grant administration staffing plan to accomplish the applicant's goals and activities. Provide information on roles that will be responsible for ensuring the successful execution of HHAP funded projects.

HHAP-2 Funding Plans Question 3 - Begin Answer

The grant administration funding will support 3 staff positions that will be directly involved in this project. The CoC's Executive Director (ED) will be responsible for oversight of project acquisition and coordination with service providers for this project. The Director will be expected to review potential sites and assist with the Request for Proposal and/or Invitation for Bid process. The Coordinated Entry Manager will be responsible for developing the client referral process as well as HMIS coordination and tracking for the project. The Coordinated Entry Assistant will oversee the processing of all HHAP grant reporting for this project. The assistant will also manage the referral process, communicating with potential tenants and their case managers.

HHAP-2 Funding Plans Question 3 - End Answer

Descriptions should include but are not limited to:

- a. The number of full-time employees (FTE) or percent of time per FTE that will be employed by the applicant dedicated to the execution of HHAP-2.

HHAP-2 Funding Plans Question 3a - Begin Answer

Executive Director - 1FTE at 10% staff time

Coordinated Entry Manager - 1FTE at 5% staff time

Coordinated Entry Assistant - 1FTE at 5% staff time

HHAP-2 Funding Plans Question 3a - End Answer

- b. Existing staff positions that will be leveraged to fulfill this need.

HHAP-2 Funding Plans Question 3b - Begin Answer

The three above positions are all current staff.

HHAP-2 Funding Plans Question 3b - End Answer

4. In what ways the applicant's jurisdiction is leveraging the adult system to serve youth and in what ways the homelessness response system has been or will be adapted to youth; and how the applicant will use HHAP-2 funding to ensure youth can access services and that targeted spending meets their needs.

HHAP-2 Funding Plans Question 4 - Begin Answer

Our project team will work closely with our regional multi-disciplinary team to ensure that our current services system appropriately serves the homeless youth. HHAP-2 funds will pay for, at a minimum, one youth-targeted unit in the proposed project. The CoC will gladly participate in available TA from the state that can increase awareness and service that speak to the specific needs of the youth that are experiencing homelessness in the community.

HHAP-2 Funding Plans Question 4 - End Answer

5. Describe how the applicant will incorporate meaningful collaboration with individuals that have lived experience being homeless throughout funding planning, design, implementation, and evaluation.

HHAP-2 Funding Plans Question 5 - Begin Answer

Our project team currently includes an individual with lived experience. This individual is also participating in our gaps analysis process. We plan to include individuals who are currently homeless as we develop the overall details for this proposed project.

HHAP-2 Funding Plans Question 5 - End Answer

4. HHAP-2 Goals

Creating performance targets that can be clearly measured every year ensures a commitment to locally shared goals. Utilizing the local needs assessment, applicants must identify the areas of impact to be targeted by HHAP funds in Section 3: HHAP-2 Funding Plans, and in this section must present specific and measurable goals for those investment areas. These goals should inform how applicants design HHAP programming and should be stated in the local selection process funding announcements and subcontracts so that local applicants and the selected subrecipients understand program expectations.

HHAP Programmatic Goals

HHAP statute mandates that applicants set goals related to the total number of individuals served and, of those served, the number who will be successfully placed in permanent housing due to HHAP-2 investments.

For interventions funded with HHAP, applicants must show how their jurisdiction plans to use their HHAP investment to meet statutorily-required goals by providing the following in the table below: (1) number of individuals that *currently* need this intervention; (2) number of households expected to be served, annually and over the entire grant period; and (3) number of households expected to be placed into permanent housing, annually and over entire grant period.

Note: identified need below should be the same as the numbers indicated in Section 1.

Table – Statutory Goals by Intervention Type – Permanent Supportive and Service-Enriched Housing

	FY 21/22	FY 22/23	FY 23/24	FY 24/25	FY 25/26	Total #
Total # of individuals that <i>currently</i> need this intervention	147					
# of individuals expected to be served by HHAP-2	26	5	5	5	5	46
# of individuals expected to be placed into permanent housing through HHAP-2	26	5	5	5	5	46

Table – Statutory Goals by Intervention Type – Rental Assistance

	FY 21/22	FY 22/23	FY 23/24	FY 24/25	FY 25/26	Total #
Total # of individuals that <i>currently</i> need this intervention	676					
# of individuals to be served	0	0	0	0	0	0

# of individuals to be placed into permanent housing	0	0	0	0	0	0
--	---	---	---	---	---	---

Table – Statutory Goals by Intervention Type – Interim Housing

	FY 21/22	FY 22/23	FY 23/24	FY 24/25	FY 25/26	Total #
Total # of individuals that <i>currently</i> need this intervention	582					
# of individuals to be served	0	0	0	0	0	0
# of individuals to be placed into permanent housing	0	0	0	0	0	0

Table – Statutory Goals by Intervention Type – Diversion and Homelessness Prevention

	FY 21/22	FY 22/23	FY 23/24	FY 24/25	FY 25/26	Total #
Total # of individuals that <i>currently</i> need <i>equity</i> this intervention	1301					
# of individuals to be served	0	0	0	0	0	0
# of individuals to be placed into permanent housing	0	0	0	0	0	0

Table – Statutory Goals by Intervention Type – Outreach

	FY 21/22	FY 22/23	FY 23/24	FY 24/25	FY 25/26	Total #
Total # of individuals that <i>currently</i> need this intervention	580					
# of individuals to be served	0	0	0	0	0	0
# of individuals to be placed into permanent housing	0	0	0	0	0	0

Table – Statutory Goals by Intervention Type – Services

	FY 21/22	FY 22/23	FY 23/24	FY 24/25	FY 25/26	Total #
# of individuals to be served	0	0	0	0	0	0
# of individuals to be placed into permanent housing	0	0	0	0	0	0

In addition to setting clear goals on numbers served and numbers moved into permanent housing, applicants must also provide the following:

1. Any additional systemwide goals the applicant's jurisdiction and/or region has identified and the metrics used to evaluate progress towards those goals.

HHAP-2 Goal Question 1 - Begin Answer

The goals identified through the regional strategic planning process include those listed above. No additional goals have been identified. Please reference the Forward:YubaSutter strategic plan at www.forwardyubasutter.com.

HHAP-2 Goals Question 1 - End Answer

2. An update on systemwide goals identified in HHAP-1 and explanation of any goal modifications made in response to changing needs.

HHAP-2 Goal Question 1 - Begin Answer

System-wide goals identified in HHAP-1 were consistent with those in our Strategic Plan. The goals are to:

1. Prevent Homelessness
2. Create Safe and Informed Communities
3. Expand Housing Options
4. Provide Consistent, Accurate Information
5. Finance Homeless Initiatives

In the midst of COVID response, progress towards these goals was limited due to staffing resources being re-prioritized. Specific goals and outcomes related to Round 1 of HHAP funding were to enhance regional partnerships as well as the homeless services and housing delivery system. Specifically, with HHAP dollars, the following impacts were anticipated to be achieved by December 2022:

1. Reduce vacancy rate at 14Forward by 10%
 - Baseline of 22.5% from 2019 HIC
 - Update: Average vacancy rate from July – November is 39%.

Vacancy rate has increased, due to the need for social distancing and isolation needs during COVID-19.

2. Increase yearly number of individuals sheltered at 14Forward by 25%
 - Baseline of 85 from 2019 HUD Annual Performance Report (APR)
 - Update: 2020 APR shows 122 persons were sheltered at 14Forward throughout the year. This is an increase of 44%.
3. Increase number of exits from 14Forward to Permanent Housing destinations by 10% annually
 - Baseline of 22 from 2019 HUD Annual Performance Report (Update: Data Quality Improvement Project corrected this number to 21)

- Update: 2020 APR indicates 20 exits to Permanent Housing destinations from 14Forward. This is a slight reduction in exits, and is due to limitations on in-person housing navigation assistance as a result of COVID.

HHAP-2 Goals Question 1 - End Answer

3. At least one clear, measurable performance goal related to how HHAP-2 funding will address racial disparities identified in the jurisdiction's homelessness response system.

HHAP-2 Goal Question 1 - Begin Answer

In reviewing recent gaps analysis and assessments of racial disparities within the local homeless services delivery system, the data shows that there is a larger percentage of Black, American Indian or Alaska Native, and Multiple Races who experience homelessness compared to the general population. However, there is a significantly smaller percentage of those who are Hispanic/Latino and experiencing homelessness than those within the general population. These disproportionately impacted populations appear to score higher on the vulnerability scale, as the Sheltered PIT count shows a much higher percentage of Black, American Indian or Alaska Native, and Multiple Races, as being sheltered at the time of the count (the Coordinated Entry system prioritizes the most vulnerable for available shelter beds and housing programs). Interestingly, while the total PIT in 2019 shows roughly half the percentage of the Hispanic/Latino population in the census (14.8% vs 29.1%), the percentage of the sheltered population in 2020 indicates double the total count from 2019 (28.9%). This also indicates a higher vulnerability for the Hispanic/Latino ethnicity.

With this data, it appears that the Coordinated Entry process within the homeless services delivery system is effectively matching people of color to shelter and housing. The County will continue current processes for prioritizing the highest vulnerable populations for shelter and housing programs, and regularly analyze the impacts on the Black, American Indian or Alaska Native, and Multiple Races, and adhering to our current non-discrimination policies.

With HHAP-2 funding, the CoC's goal is to provide permanent housing to an equal proportion of people of color, as compared to the total Point in Time count (sheltered and unsheltered).

- By 12/31/2021, and annually thereafter, data will indicate that persons of color entering new innovative permanent housing programs will equally compare with the percentage of persons of color in the yearly Point in Time count, with a margin of less than 15% difference.

HHAP-2 Goals Question 1 - End Answer

4. At least one clear, measurable, youth-specific performance goal related to HHAP-2 investments, including an explanation of how the applicant's jurisdiction accounts for the unique service needs of youth when determining how to set performance targets for youth set-aside funding interventions.

HHAP-2 Goal Question 1 - Begin Answer

One of the holes identified through the gaps analysis process was housing for youth. There are Housing Vouchers through the Housing Authority for youth who are exiting foster care and taking part in the Transitional Housing Program through Housing and Community Development. However, there are no specific youth housing programs or units dedicated to this population.

Funding from HHAP-2 will support innovative housing solutions for this population.

- By 8/31/2021, complete gaps analysis process, and determine goals for creating permanent housing units dedicated to youth ages 18-24
- By 12/31/2024, permanent housing units dedicated to youth, ages 18-24 will have been created

HHAP-2 Goals Question 1 - End Answer

5. Local Project Selection Process

Applicants may choose (though they are not required) to contract with local nonprofits and service providers to administer the services detailed in their HHAP-2 Funding Plan. When contracting for services, applicants shall select qualified service providers that provide services which match the needs of the local population of people experiencing homelessness and which are HHAP-eligible activities that are in line with the applicant's HHAP-2 Funding Plan.

HCFC encourages applicants to consider how these funds are accessible to smaller and non-traditional organizations that have historically served communities of color but may not have previously participated formally in the CoC or been a part of the homeless provider community.

To successfully complete this section of the application, applicants will need to provide the following:

1. An explanation of how HHAP-2 funds will be distributed and whether a local project selection process will be utilized to select subcontractors.

Local Project Selection Process Question 1 - Begin Answer

The CoC, Yuba County, and Sutter County plan to combine their HHAP 2 allocation for one regional project. This project will focus on the development of interim and permanent housing to meet the need for prioritized households as identified through the gaps assessment process. This project will be planned in a manner to follow COVID-19 protocol and principles.

There will be one joint Request for Proposal (RFP) that will solicit local entities to develop and operate the above-mentioned site. Our RFP team will directly reach out to potential applicants from underserved communities and other entities that do not traditionally participate in CoC funding opportunities and activities. These applicants will be offered direct technical assistance to assist them in the application process. Smaller applicants will also be encouraged to partner with larger more established non-profits to assist in building overall long term capacity. All applicants will need to show the ability to develop a high level of cultural competency and the expertise to address issues of racial disparity. Applicants must also commit to utilizing housing first practices.

Both Counties and the CoC will form one selection committee that will include county staff, CoC Board members, homeless adults and youth with lived experience to review proposals and determine the awarded entity. This committee will utilize standard project scoring methodologies to objectively evaluate projects with a focus on performance data and development experience.

Timeline: We anticipate that the above-mentioned RFP process will commence 60-90 days after the receipt of HHAP 2 funding. We plan to have this project operational within the first quarter of calendar year 2022.
Local Project Selection Process Question 1 - End Answer

Will subcontractors be utilized? Yes

a. If the applicant *is not utilizing* a local selection process, please include the following in the explanation:

i. Description of why this is the best funding plan for the community; and

Local Project Selection Process Question 1a.i. - Begin Answer
Local Project Selection Process Question 1a.i. - End Answer

ii. Description of how applicants will ensure equitable access to services funded.

Local Project Selection Process Question 1a.i.i. - Begin Answer
Local Project Selection Process Question 1a.i.i. - End Answer

b. If the applicant *is utilizing* a local selection process, please include the following in the explanation:

i. What is the process and timeline for project selection?

Local Project Selection Process Question 1b.i. - Begin Answer
See narrative above
Local Project Selection Process Question 1b.i. - End Answer

ii. How will the applicant encourage new partners to participate?

Local Project Selection Process Question 1b.i.i. - Begin Answer
See narrative above
Local Project Selection Process Question 1b.i.i. - End Answer

iii. How will people with lived experience of homelessness, including youth with lived experience, have meaningful and purposeful opportunities to shape the selection process and funding decisions?

Local Project Selection Process Question 1b.i.i.i. - End Answer

- iv. How will the applicant promote equity and ensure underrepresented communities can be competitive applicants for funding?

Local Project Selection Process Question b.i.v. - Begin Answer

See narrative above

Local Project Selection Process Question b.i.v. - End Answer

2. Describe how systemwide collaboration would occur among homelessness service providers and other social safety net providers. How do these collaborative efforts help minimize or avoid the duplication of service and effort?

Local Project Selection Process Question 2 - Begin Answer

The Yuba Sutter region already has a strong collaborative system. The system has been built on the framework of frequent planning meetings that include staff from both Counties, CoC Board members, key service providers and individuals with lived experience.

The CoC facilitates monthly stakeholder meetings to promote collaboration between agencies, share information, and ensure aligned vision for homeless delivery system partners. Several regional committees and sub-committees meet actively to make progress on shared goals and priorities. Yuba County is currently taking the lead on facilitating a detailed regional gaps analysis process. Prior to the COVID pandemic, elected officials from each county and city in the region participated a monthly planning meeting. This group will soon resume meeting, as part of the new CoC structure, as the Government Affairs Committee. This frequent collaborative planning process has allowed our region to change the paradigm of homelessness over the last several years. Also, there two major processes that allow us to avoid duplications:

- A significant amount of local homeless services and housing funding is passed through the CoC. The CoC Board has an approach of approving funding for projects that do not provide the same services.
- Our current gaps analysis process helps our region determine what service and housing components are needed so that we are not focusing on projects that already have a sufficient service component.

Local Project Selection Process Question 2 - End Answer

In addition to the narrative questions above, check all box(s) that apply to the applicant's community:

Table – Local Project Selection Process Assessment

LOCAL PROJECT SELECTION PROCESS ASSESSMENT (check all that apply)
Local Project Selection Assessment Statement: The process will clearly define for potential subcontractors which types of projects will be prioritized for funding and which needs identified in the needs/gaps assessment are intended to be met by funding such projects.

Local Project Selection Assessment Response: Yes
<p>Local Project Selection Assessment Statement: The process will prioritize programs that address the disproportionate impacts that homelessness and COVID-19 have on communities of color, particularly Black, Latinx, Asian, Pacific Islander, Native and Indigenous communities.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will remove barriers to competitive participation by applicants representing marginalized communities.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will use objective criteria to evaluate projects for funding.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The objective criteria used to evaluate projects will include data on past performance related to the proposed activity (for example, an existing rapid rehousing provider applies to provide rapid rehousing services with HHAP funds and provides HMIS data to show a history of positive outcomes)</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The objective criteria used to evaluate projects will allow applicants applying to perform services not previously performed by their organization, to provide other data or outcome results to support their competency to perform the proposed activity.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will have provisions to allow for innovation, while balancing the need for data and performance-based decision-making.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will be posted publicly on a platform that is accessible to the public.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will consider the severity of needs and vulnerabilities of the proposed target population in its objective criteria – and aligns its prioritization of these needs with the needs identified through the community needs assessment process.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will avoid conflict of interest.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will only fund programs that follow a Housing First approach.</p> <p>Local Project Selection Assessment Response: Yes</p>
<p>Local Project Selection Assessment Statement: The process will include people with lived experience to have meaningful and purposeful opportunities to inform and shape all levels of planning and implementation.</p> <p>Local Project Selection Assessment Response: Yes</p>

6. Racial Equity Efforts

HHAP-2 applicants should prioritize the advancement of racial equity at every level of the homelessness response system. Applicants must be actively involved in their homelessness response systems, facilitating partnerships among service organizations, and promoting racial equity practices. Applicants must respond to disproportionality in access to services, service provision, and outcomes. Applicants cannot simply rely on delivering a standardization of services to address equity. Applicants have the responsibility to examine their data to ensure all eligible persons receive equitable services, support, and are served with dignity, respect, and compassion regardless of circumstances, ability, or identity.

HCFC encourages applicants to consider how these funds are accessible to smaller and non-traditional organizations that have historically served communities of color but may not have previously participated formally in the CoC or been a part of the homeless provider community, and how these funds would address the organizational capacity of organizations that are led by Black, Latinx, Asian, Pacific Islander, and Native and Indigenous people that support the goal of reducing and ending homelessness.

To successfully complete this section of the application, applicants will need to provide the following:

1. Using the [Racial Demographic Data Worksheet \(Appendix D\)](#), please provide the Continuum of Care Outcomes by Race and Ethnicity.
2. Describe how the local homelessness response system or projects the applicant is planning use policy and practices to ensure equal access and non-discrimination when serving prospective and new program participants.

Racial Equity Efforts Question 2 - Begin Answer

Although formalized policies are not developed at the CoC level, agencies are expected to practice equal access and non-discrimination when serving the community. Grant funds made available through the County to partner agencies include contract language upholding fair and equal processes and non-discrimination. Funds that are made available through the CoC to partner agencies are typically contingent upon providing written verification of these processes. Additionally, data is monitored closely by the CoC to identify any areas of concern.

The County of Yuba is held accountable to practice fair and equal access and non-discrimination, as a government entity providing services to its constituents. At the Health and Human Services Department, policies are developed and reviewed annually with staff. Ongoing training is provided in the areas of implicit bias, civil rights, cultural diversity, working with diverse populations, and other

topics that enhance professionalism. The County exhibits high standards in this area, and projects are monitored to ensure continual compliance with policies and practices.

Racial Equity Efforts Question 2 - End Answer

3. How does the applicant's grant making process and/or funding decisions include prioritization of programs that are addressing the disproportionate impacts that homelessness and COVID-19 have on communities of color, particularly Black, Latinx, Asian, Pacific Islander and Indigenous communities?

Racial Equity Efforts Question 3 - Begin Answer

The CoC intends to work with the Yuba and Sutter Counties to institutionalize processes which will ensure the disproportionate impacts of homelessness and COVID-19 are addressed among communities of color. The agencies in the Yuba/Sutter region are limited in numbers and capacity, and at this time none are dedicated solely to serving this population. Additional research needs to be completed in order to understand the depth of these impacts and how they are addressed by partner agencies, to identify opportunities for improvement and to provide support in meeting this priority. However, to further fair housing and equal opportunity, any agency which receives funding and enters into a contract with the County or the CoC, agrees to take full accountability for complying with Fair Housing laws and all other funding and program requirements. The contracts typically require agencies to use the Coordinated Entry System and Homeless Management Information System in a consistent manner with the statutes and regulations that govern their housing programs. Each agency that receives funding from the CoC must share their tenant selection plan as well as documentation of any reasonable requirements or contracts that mandate the agency to limit their services to a specific subpopulation. For example, a single gender program must produce reasonable information as to why they are unable to serve both genders (i.e., their facility does not have separate sleeping areas to accommodate both genders for safety reasons).

Racial Equity Efforts Question 3 - End Answer

4. How are the voices of Black, Latinx, Asian, Pacific Islander and Indigenous communities being developed as central in creating effective approaches to reducing and ending homelessness?

Racial Equity Efforts Question 4 - Begin Answer

By expanding our processes to complete the gaps assessment and the process to further identify the disparities facing our local communities of color, the CoC and agencies committed to reducing and ending homelessness will create space for the voices of these communities. It is important that all cultures that are present in our community are represented during the development and improvement of the homeless delivery system.

It should be noted that the Coordinated Entry (CE) system includes all subpopulations, including Chronic Homeless, Veterans, families, youth, and survivors of domestic violence, although the CoC retains the ability to adopt different processes for accessing CE, including different access points and assessment tools for the following different populations: (1) adults without children, (2) adults accompanied by children, (3) unaccompanied youth, or (4) households fleeing domestic violence. The CE system is available to all eligible persons regardless of race, color, national origin, religion, sex, age, familial status, disability, actual or perceived sexual orientation, gender identity, or marital status. The CoC continuously evaluates CE processes to ensure that all subpopulations are served, and to make policy decisions around improving the system.

Racial Equity Efforts Question 4 - End Answer

5. Does the applicant have a strategy to expand the reach of funding to underserved and marginalized communities and non-traditional providers who can reach and serve disproportionately impacted communities? If so, please describe.

Racial Equity Efforts Question 5 - Begin Answer

Currently, the Homeless Engagement And Resolution Team (HEART) works with law enforcement throughout the region to conduct outreach into remote encampments where many of our homeless citizens would otherwise go unserved. This team is building relationships by consistently making contact, offering connections to shelter and housing, and utilizing best practices for engagement. By using a single outreach team, members of the HEART are successful at their mission and are able to monitor and gauge activity in encampments throughout the entire region. This strategy has proven to meet desired outcomes and can be scaled to meet the needs of other underserved/marginalized communities.

The collaborative partners within Yuba County, Sutter County, and the CoC have agreed that additional work needs to be done in this area. The CoC has proposed that a sub-committee is created within its structure that will explore the needs and disparities of communities of color and how to address those needs most appropriately, including the selection of both traditional and non-traditional providers for expanding the reach of funding. Through the CoC, our team will reach out to a Technical Assistance provider to help develop strategy, policy, and practices to meet this goal.

Racial Equity Efforts Question 5 - End Answer

6. Describe how the priority population(s) learn about and enter local homelessness programs, including marketing and communication strategies used.

Racial Equity Efforts Question 6 - Begin Answer

To provide education to the target populations, several avenues are available, including site-based at our two day centers, over the phone through the two homeless hotline phone numbers, and through outreach to encampments. Additional work is being done to educate businesses and community members of the pathway to obtaining homeless services, through Coordinated Entry, through the Creating Safe and Informed Communities committee which meets monthly. Partners from law enforcement, code enforcement, the local hospital, day center staff, outreach staff, and representatives from homeless services through Yuba County, Sutter County, and the CoC are represented at these meetings. Throughout the last year, much progress has been made to share resources and build capacity in outreach, not only to the homeless population themselves, but to our community. The next project for this group is to record a series of vignettes to highlight outreach activities and describe how to best help when you encounter someone experiencing homelessness. These videos will be shared on social media platforms and shared with the community via public meetings and email blasts.

There are two physical sites that are dedicated to providing an entry point into the homeless services system. One is located in Sutter County at Hands of Hope, and one is located in Yuba County at the Life Building Center. These centers are open Monday through Friday from 9:00 am until 3:30 pm for people to access services on-site, or over the phone. Yuba County contributes to the operational budget for the Life Building Center, ensuring staff are available to complete interviews and conduct vulnerability assessments during hours of operation.

Communication between providers and the homeless populations continues to be a priority, and the Coordinated Entry committee is working on institutionalizing practices in this area. It is the intention of the committee to ensure that the population understands the system and what is available to them both immediately, and for longer-term assistance.

Racial Equity Efforts Question 6 - End Answer

7. How is the applicant making community project grants accessible to smaller organizations that have historically served communities of color, but may not have previously participated formally in the CoC or as a part of the "homeless provider" community?

Racial Equity Efforts Question 7 - Begin Answer

Processes for awarding grant funds from the CoC typically do not include specific outreach to organizations who are not experienced in administering the activities of the desired project. Funds granted to partners are recently time-limited, and expertise is necessary to quickly establish a project and begin producing outcomes to meet the funding requirements. However, the CoC will provide technical assistance to smaller organizations that have not received funding in the past.

Specific to the HHAP funds, the CoC will collaborate with Sutter and Yuba Counties to issue a Request for Proposal, to expand innovative housing options and provide wrap around services. Marketing for this funding will be done through email blasts, social media pages, the Chamber of Commerce, and other avenues where potential organizations are known to receive their information. Targeted outreach may appear biased, so all processes will be fair and equal to all entities who may be interested in applying for this opportunity.

Racial Equity Efforts Question 7 - End Answer

8. How does the applicant partner with organizations that are addressing racial equity in the housing and homelessness response system?

Racial Equity Efforts Question 8 - Begin Answer

Through the gaps assessment process, outreach is being done with major contributors to addressing racial equity in areas of our community. These entities will be invited to contribute to the process of analyzing gaps, and creating solutions to address disparities as they are discovered.

Racial Equity Efforts Question 8 - End Answer

9. How will the applicant ensure that racial disparities are addressed with this funding?

Racial Equity Efforts Question 9 - Begin Answer

The bi-county region has created a goal for the HHAP funds, that by 12/31/2021, and annually thereafter, data will indicate that persons of color entering new innovative permanent housing programs created with HHAP dollars will equally compare with the percentage of persons of color in the yearly Point in Time count, with a margin of less than 15% difference. The CoC will gladly participate in available TA from the state to increase the use of practices that assist with ensuring a racial equity lens is utilized for future planning.

Racial Equity Efforts Question 9 - End Answer

In addition to the narrative questions above, check all boxes that apply to the applicant's community:

Table – Racial Equity Assessment

RACIAL EQUITY ASSESSMENT (check all that apply)	
Racial Equity Assessment Statement: We have a racial equity policy within the organization I work for.	Racial Equity Assessment Response: Implemented

Racial Equity Assessment Response: **Implemented**

Racial Equity Assessment Statement: Our work includes performance measures to determine how well we are doing to address racial disparities.

Racial Equity Assessment Response: **Planning to Implement**

Racial Equity Assessment Statement: We have developed and implemented a plan to address racial disparities in the homelessness response system.

Racial Equity Assessment Response: **Planning to Implement**

Racial Equity Assessment Statement: We host or participate in trainings dedicated to improving equitable outcomes.

Racial Equity Assessment Response: **Planning to Implement**

7. Regional Collaboration and Partnerships

HHAP program funds are intended to support regional coordination and expand local capacity to address homelessness. Demonstration of how jurisdictions have coordinated and will continue to coordinate with other jurisdictions is a critical factor of funding. With HHAP-1 funding, applicants were required to partner with other applicants to make collective funding decisions for their communities. HHAP-2 funding should increase and improve those partnership efforts.

To successfully complete this section of the application, applicants must provide the following:

1. Describe the process by which neighboring HHAP-funded jurisdictions are coordinating together to address homelessness, including funding collaboration and coordination, peer learning, and data sharing.

Regional Collaboration and Partnerships Question 1 - Begin Answer

The Sutter Yuba Homeless Consortium (SYHC) was established in 2006, with the goal of being recognized by Housing and Urban Development as the official Continuum of Care (CoC-524) for the Sutter and Yuba region. The early beginnings of the agency were focused on communication and understanding of the entire homeless service delivery system, and attempts to reduce duplication of effort. Since that time, the agency has obtained its 501(c)(3), grown their budget to over \$3 million, and established three committees to oversee the work of the agency: strategic planning, service access, and sustainability. The CoC recently hired an Executive Director to help manage the budget, monitor partner agencies and outcomes, and continue to improve communication and regional partnerships.

In 2017, the Bi-County Homeless Services Program was created for general planning of regional efforts addressing homelessness and to unify proposed initiatives. This regional planning group included staff from both Yuba and Sutter Counties, elected officials from the two counties and four cities in the jurisdictions, board members of the CoC, as well as local law enforcement, and nonprofits. Yuba County, Sutter County, and the CoC collaborated through this group to establish the bi-county strategic plan,

Forward:YubaSutter, which identifies program and funding priorities for the region. Five committees were created to address the priorities identified in the strategic plan: expanding housing options, preventing homelessness, creating safe and informed communities, providing consistent, accurate data, and funding homeless initiatives. The priorities for new projects are analyzed through the lens of this plan, including the projects proposed through HHAP. The region does not take a siloed approach, the CoC and both counties working in collaboration to plan and fund projects.

With a goal of improving efficiency and reducing duplication, in early 2020 the members of the Bi-County Homeless Services Program and the CoC board met to discuss a unification of the two groups. Work was completed to restructure the CoC to include a Government Affairs Committee and a reorganization of the existing eight committees. Work continues to be done to improve the homeless delivery system in the region, and the collaboration between the three entities has proven to be beneficial. CoC Stakeholder meetings are held monthly, and representatives from a cross-section of agencies, including representatives from both Yuba and Sutter County, businesses, and persons with lived experience attend and provide input.

Regional Collaboration and Partnerships Question 1 - End Answer

2. Describe the ways HCFC funding plans are coordinated with regional partners that are also receiving HCFC funding. If there are changes to the funding plans, how are partners informed of these changes?

Regional Collaboration and Partnerships Question 2 - Begin Answer

At the onset of the HHAP availability for Round 2 funding, leadership from the two counties and the CoC met to discuss the funds and begin collaborating on the application. The writing of portions of the application that overlap jurisdictions were shared between the three agencies. A single project was prioritized, using the regional strategic plan as a guide to determine need. Several other planning meetings were conducted throughout the months of preparation, to ensure effective communication throughout the process. Changes to funding plans by regional partners will quickly be discovered, as the prioritized, collaborative project will require consistent and regular communication. If competing priorities for funding are found, the team will reconsider the feasibility of the planned project and determine next steps for moving forward.

Regional Collaboration and Partnerships Question 2 - End Answer

3. Using the experience with HHAP-1 planning, describe successes that have come out of regional coordination and partnering efforts. Also, describe any barriers the applicant has experienced in working with regional partners. Explain any strategies identified that have contributed to the address these barriers.

Regional Collaboration and Partnerships Question 3 - Begin Answer

Since receiving HHAP funding, the CoC has continued to strengthen collaborations in place throughout the region.

As indicated above, the Bi-County Homeless Services program (BCH) had been in existence since 2017, and in 2020, that group approved funding for the CoC Executive Director position, a new position for the agency. The four

major jurisdictions represented in the BCH (Yuba County, Sutter County, City of Marysville, and City of Yuba City) each contributed a portion of the funding needed to support this position for two years. The CoC is in the process of approving a formal MOU with a clear scope of work, outlining the expectations and roles of the CoC and the counties. This project was successful due to the commitment of the CoC to provide leadership for the homeless services delivery system, and the commitment of the Counties and Cities to support their role as leader.

Also in 2020, as part of the region's strategic plan, the Homeless Engagement And Resolution Team (HEART) was established and appropriate MOU's executed between Yuba County, Sutter County, City of Yuba City, City of Marysville, City of Wheatland, and City of Live Oak. The two Counties worked very diligently together to pass Assembly Bill 2174, expanding legislation so that a Yuba/Sutter Homeless Multi-Disciplinary Team could be established (the youth-funded agency for HHAP-1), and information could be shared across jurisdictional boundaries. This team has evolved throughout COVID restrictions, and is currently conducting outreach in each of the four major jurisdictions, once a week. Success of this project was due to consistent and regular communication, as well as the dedication of both County's staff members assigned to the leadership of the committee.

Another way the CoC partnered with the two counties was through the creation of a joint Homeless Task Force in the beginning of our response to COVID-19. The task force consisted of homeless program staff from each county and a representative from the CoC, who worked together to initiate a meal distribution program for the unsheltered homeless population, and eventually, Project Roomkey. The success of this project is attributed to the use of Incident Command Structure, with each team member assigned to specific roles and responsibilities.

Barriers encountered have typically been related to communication and alignment of vision. These have been resolved through regular meetings involving leadership and project staff. However, this year, COVID response took priority and leadership resources have been dedicated to addressing the pandemic.

A barrier we've encountered with our formalized partnerships was a lack of clear distribution of roles for each agency and staff involved in projects. This resulted in duplication of effort, and frustration among direct service staff. A solution for this barrier was to work with the partner agency to clearly communicate roles and responsibilities, creating tools that will support staff as they're making decisions about workload and delegation of tasks.

Regional Collaboration and Partnerships Question 3 - End Answer

4. How will HHAP-2 funding support and scale current partnerships?

Regional Collaboration and Partnerships Question 4 - Begin Answer
HHAP-2 funding will create opportunities for the regional partnership to expand between the CoC, Yuba County, and Sutter County, by encouraging system-wide projects and partnerships. With the recent union between the Bi-County Homeless Program and the CoC, the ability to build on the partnership has grown. By organizing the new CoC committee structure to include elected officials from the board of each County, as well as County staff participating in committee activities and on the board of the CoC, communication and alignment of efforts will continue to improve and expand.

Regional Collaboration and Partnerships Question 4 - End Answer

5. Describe applicant's share of the regional need as well as the share of the regional need from partnering jurisdictions (CoC, County, Large City). Describe the methodology used for determining the share of the regional need.

Regional Collaboration and Partnerships Question 5 - Begin Answer
The CoC area covers all of Yuba and Sutter Counties, and data is maintained through the CoC using the Homeless Management Information System, Point in Time Counts, and Housing Inventory Counts. During the 2019 Point in Time Count, data showed 721 persons experiencing homelessness on the last Wednesday in January. By mining the data, it was found that 428 individuals experiencing homelessness indicated they were staying in Yuba County, while 293 were staying in Sutter County. With the vast majority of shelters in the region existing in Yuba County, we looked at the unsheltered numbers as well. 283 individuals were identified in Yuba County, and 145 were identified in Sutter County.

Subsequently, regular reports have been created to show the need and work being done in each County. The most recently compiled report was completed in August 2020, and indicates 46 households entered the system in Yuba County, while just 28 households entered the system in Sutter County during the month. An ongoing review of these reports is done at the CoC and with both Counties homeless project staff, monitoring trends and any areas of concern, in order to plan accordingly.

Regional Collaboration and Partnerships Question 5 - End Answer

6. Describe how HHAP-2 funds will be integrated into the current regional strategic plan to address homelessness. Has the region's strategy for use of HHAP funding changed since HHAP-1?

Regional Collaboration and Partnerships Question 6 - Begin Answer

Forward: Yuba/Sutter, the Yuba/Sutter region's strategic plan to address homelessness, is the framework for prioritizing new projects in the area. Funds from HHAP are used to support projects within the identified priorities, specifically those which other funding sources cannot support. HHAP-1 met a need by supporting and expanding services through emergency shelter, as part of the goal to expand housing options. HHAP-2 will similarly address this goal, by establishing an innovative permanent housing solution. The goal that HHAP is supporting, as stated in the strategic plan, is focused on creating new interim and permanent housing beds. This will expand existing resources and support the various types of housing needs that exist across the homeless population.

Regional Collaboration and Partnerships Question 6 - End Answer

7. When spending plans need to be adjusted in response to changing needs in the community, how are collaborative partners involved in those decisions?

Regional Collaboration and Partnerships Question 7 - Begin Answer

The collaborative partners will meet regularly for the implementation of HHAP-2, as the project will combine each agency's funds together for the most significant impact. If, during the process, it is found that the needs of the community have changed, the project team will invite the leaders from each entity to discuss different avenues for addressing those needs. It is expected that communication will be consistent and timely, as all partner agencies are represented on the team, as well as on the CoC board of directors, and remain in close contact in order to be effective on a regional level.

Regional Collaboration and Partnerships Question 7 - End Answer

8. Has a youth-specific strategy been identified within the applicant's region? If so, please describe. If not, why not?

Regional Collaboration and Partnerships Question 8 - Begin Answer

Youth-specific strategies were not identified during the strategic planning process, however, representatives from agencies serving youth were included in the development of the plan. During the strategic planning process, 17 agencies identified that they serve homeless youth age 18-24, and only 7 respondents indicated they would prioritize permanent housing targeting this population in an overall plan to address homelessness in the region. For this reason, no specific strategy was determined to be included in the plan.

However, as the State has prioritized this sub-population for services, additional efforts will be planned throughout 2021 to identify and support the specific needs of youth age 18-24.

Regional Collaboration and Partnerships Question 8 - End Answer

9. Describe how youth-specific local partners are involved in making regional planning or spending decisions.

Regional Collaboration and Partnerships Question 9 - Begin Answer

As the state has prioritized this sub-population for services, additional efforts will be planned throughout 2021 to identify and support the specific needs of homeless youth aged 18-24. This includes receiving input from the youth multi-disciplinary teams and the 17 agencies identified as serving homeless youth.

Regional Collaboration and Partnerships Question 9 - End Answer

8. Housing First Assessment

Housing First-oriented programs are low or no barrier and client-centered, emphasizing client-choice. Housing is not viewed as a reward or incentive for achieving specific goals or participating in a specific program, but as necessary to help a family or individual stabilize and meaningfully access services, which are offered as needed on a voluntary basis. In practice, this means that programs connect participants to permanent housing as quickly as possible with few to no preconditions, behavioral contingencies, or other barriers at enrollment or throughout the program.

Health and Safety Code Section 50220.5(g) mandates that all recipients of state homelessness funding shall comply with Housing First as provided in Chapter 6.5 (commencing with Section 8255) of Division 8 of the Welfare and Institutions Code.

To successfully complete this section of the application, applicants will need to assess their current policies and check all that apply:

Table – Housing First Assessment

Housing First Assessment (check all that apply)
<p>Housing First Assessment Statement: Access to programs is not contingent on sobriety, minimum income requirements, lack of a criminal record, completion of treatment, participation in services, or other unnecessary conditions. Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: Programs or projects do everything possible not to reject an individual or family on the basis of poor credit or financial history, poor or lack of rental history, minor criminal convictions, or behaviors that are interpreted as indicating a lack of “housing readiness.” Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: People with disabilities are offered clear opportunities to request reasonable accommodations within applications and screening processes and during tenancy and building and apartment units include special physical features that accommodate disabilities. Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: Programs or projects that cannot serve someone work through the coordinated entry process to ensure that those individuals or families have access to housing and services elsewhere. Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: Housing and service goals and plans are highly client centered and driven. Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: Supportive services emphasize engagement and problem-solving over therapeutic goals. Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: Participation in services or compliance with service plans are not conditions of tenancy but are reviewed with clients and regularly offered as a resource to clients. Housing First Assessment Response: Yes</p>
<p>Housing First Assessment Statement: Services are informed by a harm-reduction philosophy that recognizes that drug and alcohol use and addiction are a part of some clients' lives. Clients are engaged in non-judgmental communication regarding drug and alcohol use and are offered education regarding how to avoid risky behaviors and engage in safer practices.</p>

Housing First Assessment Response: **Yes**

Housing First Assessment Statement: Substance use in and of itself, without other lease violations, is not considered a reason for eviction.

Housing First Assessment Response: **Yes**

Housing First Assessment Statement: Clients are given reasonable flexibility in paying their share of rent on time and offered special payment arrangements for rent arrears and/or assistance with financial management, including representative payee arrangements as needed.

Housing First Assessment Response: **Yes**

Housing First Assessment Statement: Every effort is made to provide a client the opportunity to transfer from one housing situation, program, or project to another if a tenancy is in jeopardy. Whenever possible, eviction back into homelessness is avoided.

Housing First Assessment Response: **Yes**

2. Describe the scale and scope of anticipated intervention model and outline the key service components expected to be provided with this funding.

Funding Plan – Question 2 – Response Begins

The Sutter Yuba Homeless Consortium, the administrative entity for CA-524, will be using 100% of HHAP-2 funding as capitol to develop a permanent housing program in collaboration with both Sutter and Yuba Counties. All three applicants will be using HHAP funds for this purpose.

Funding Plan – Question 2 – Response Ends

3. Describe how the requested investment amount for this intervention will help your community achieve regional goals and address specific gaps in the homeless response system as identified in the regional gaps assessment.

Funding Plan – Question 3 – Response Begins

Key stakeholders in our region are currently engaged in a new gaps analysis process. This process will be completed over the next several months. However, there is already a strong indication and consensus for a need to increase the number of interim and affordable permanent housing. Our proposed project will provide a significant increase in the number of available units and will help us partially fill that need.

Funding Plan – Question 3 – Response Ends

4. Check any specific population(s) expected to be served through this intervention investment.

Funding Plan – Question 4 – Response Begins

Submitter expects to serve the following specific populations:

Adults with children

Adults without children

Unaccompanied Youth (12-24yr of age per definition in HHAP statute)

Chronically Homeless

Veterans
Domestic Violence Survivors
Individuals with Co-occurring Disorders (Substance Use and Mental Health)
COVID High Risk – individuals at high-risk for contracting COVID
Parenting Youth
Funding Plan – Question 4 – Response Ends

5. Describe how this intervention investment will address the disproportionate impacts of homelessness on communities of color, particularly Black, Latinx, Asian, Pacific Islander, and Native and Indigenous communities.

Funding Plan – Question 5 – Response Begins
The recent 2020 sheltered PIT count shows that an increase of Latinx households are being served in emergency shelters compared to the 2019 count. For example, the 2019 PIT Count shows the overall Latinx population at 21% of the overall emergency shelter population, compared to 28% in Yuba County shelters and 18% in Sutter County shelters. The HUD Racial Equity Analysis Tool shows that 3% of Black/African American people live in poverty, and 6% are experiencing homelessness. Additionally 2% of Native American/Alaska Native individuals live in poverty, while 7% are experiencing homelessness. As we analyze these disparities, the proposed project will provide an essential tool to help our region create a more reasonable percentage, closer to our overall regional demographics. This project will also allow us to address disparities in both the African American and American Indian communities. Our proposed housing site will allow us to provide permanent housing to the above-mentioned racial categories, thus improving overall disparities.
Funding Plan – Question 5 – Response Ends

6. Describe how and how often performance will be measured for this intervention investment.

Funding Plan – Question 6 – Response Begins
Our regional team will perform an annual analysis of the overall success of this project. Team members will also provide input to the project operator regarding how they might improve their overall performance and a specific timeline for this improvement.
Funding Plan – Question 6 – Response Ends

7. If this intervention investment is expected to serve youth experiencing homelessness (as defined in HSC § 50216 (k)) what youth-specific best practices will be utilized to ensure they can access the services?

Funding Plan – Question 7 – Response Begins
At least one of the housing units within this project will be youth specific. Our project team will collaborate with our regional youth-focused multi-

disciplinary team(s). They will provide a tenant referral to the project and be asked to provide a level of case management for this client to ensure that this household is utilizing best practices for youth clients.
