Homeless Housing, Assistance and Prevention Round 3 Application

Application Information

This Cognito platform is the submission portal for the Cal ICH HHAP-3 Application. You will be required to upload a full copy of the HHAP-3 Data Tables Template *and* enter information into the portal from specific parts of the HHAP-3 Local Homelessness Action Plan and Application Template as outlined below.

Please review the following HHAP-3 resources prior to beginning this application:

- [HHAP-3 Notice of Funding Availability (NOFA)](#)
- [HHAP-3 Local Homelessness Action Plan & Application Template](#) and
- [HHAP-3 Data Tables Template](#)

Application Submission for HHAP-3 Funding

Using the **[HHAP-3 Local Homelessness Action Plan & Application Template](#)** as a guide, applicants must provide the following information in the applicable form section (see *How to Navigate this Form*) to submit a complete application for HHAP-3 funding:

1. **Part I: Landscape Analysis of Needs, Demographics, And Funding**: the information required in this section will be provided in Tables 1, 2, and 3 of the HHAP-3 Data Tables Template file uploaded in the *Document Upload* section.

2. **Part II: Outcome Goals and Strategies for Achieving Those Goals:** the information required in this section will be provided in Tables 4 and 5 of the HHAP-3 Data Tables Template file uploaded in the *Document Upload* section, **AND** copy and pasted into the fields in the *Outcome Goals and Strategies* section of this application form.

3. **Part III: Narrative Responses:** the information required in this section will be provided by entering the responses to the narrative questions within the *Narrative Responses* section of this application form. Applicants are NOT required to upload a separate document with the responses to these narrative questions, though applicants may do so if they wish. The responses entered into this Cognito form will be considered the official responses to the required narrative questions.

4. **Part IV: HHAP-3 Funding Plans:** the information required in this section will be provided in Tables

6, 7 (as applicable), and 8 of the HHAP-3 Data Tables Template file uploaded in the *Document Upload* section.

5. **Evidence of meeting the requirement to agendize the information in Parts I and II at a meeting of the governing board** will be provided as a file upload in the *Document Upload* section.

How to Navigate this Form

This application form is divided into **five sections**. The actions you must take within each section are described below.

- **Applicant Information**: In this section, indicate (1) whether you will be submitting an individual or joint application, (2) list the eligible applicant jurisdiction(s), and (3) provide information about the Administrative Entity.

- **Document Upload**: In this section, upload (1) the completed HHAP-3 Data Tables Template as an Excel file, (2) evidence of meeting the requirement to agendize the local homelessness action plan and outcome goals at a regular meeting of the governing board where public comments may be received, and (3) any other supporting documentation you may wish to provide to support your application.

- **Outcome Goals and Strategies**: In this section, copy and paste your responses from Tables 4 and 5 of the completed HHAP-3 Data Tables Template.

- **Narrative Responses**: In this section, enter your responses from Part III of the HHAP-3 Local Homelessness Action Plan & Application Template.

- **Certification**: In this section, certify that the information is accurate and submit the application.

Prior to the submission deadline, you can save your progress in this application and come back to it later by clicking the save button. This will provide you with a link to the saved application, and there will be an option to email that link to the email address(es) of your choosing.

After submitting the application, you will not be able to make changes to your responses unless directed by Cal ICH staff.

I have reviewed the HHAP-3 NOFA and application template documents
Yes

I am a representative from an eligble CoC, Large City, and/or County
Yes

Applicant Information

List the eligible applicant(s) submitting this application for HHAP-3 funding below and check the corresponding box to indicate whether the applicant(s) is/are applying individually or jointly.

Eligible Applicant(s) and Individual or Joint Designation
Joint

This application represents the joint application for HHAP-3 funding on behalf of the following eligible applicant jurisdictions:

Joint Applicants Selection

Eligible Jurisdiction 1

Eligible Applicant Name
Santa Cruz County

Eligible Jurisdiction 2

Eligible Applicant Name
CA-508 Watsonville/Santa Cruz City & County CoC

*Click **+ Add Eligible Jurisdiction** above to add additional joint applicants as needed.*

Administrative Entity Information

Funds awarded based on this application will be administered by the following Administrative Entity:

Administrative Entity
County of Santa Cruz

Santa Cruz County and CoC Data Tables 06-21-22 application_supplement_r3.xlsx

Governing Body Meeting Agenda or Minutes
County BOS Agenda & Staff Report and CoC Board Agenda.pdf

Narrative Responses

Copy and paste your responses to Part III. Narrative Responses from the [HHAP-3 Local Homelessness Action Plan & Application Template](#) into the form below.

Question 1

A demonstration of how the jurisdiction has coordinated, and will continue to coordinate, with other jurisdictions, including the specific role of each applicant in relation to other applicants in the region.

Question 1 Response
In November of 2020, the County of Santa Cruz established a Housing for Health Division within its Human Services Department to help coordinate efforts related to preventing and ending homelessness within the County. The local Continuum of Care (CoC) Board approved of the new Division serving as the CoC administrative entity, lead applicant for HUD NOFOs, the HMIS lead, and the Coordinated Entry lead for the CoC. The new Division worked with the current CoC board to establish a new CoC governance structure that was approved on June 18, 2021.

The new governance structure includes an updated CoC Board structure. Current Board members include city and county jurisdictional representation including elected officials, housing and service provider representatives, the CEO of our local managed care plan, the CEO of a local community foundation, a UC Santa Cruz representative, the Public Defender for the County, and the County's assistant health services agency director.

The CoC board approved of a joint County and CoC application for HHAP funding in November 2021. Key jurisdictional partners have established commitments to supporting the implementation of the Housing for a Healthy Santa Cruz Framework through local city council and board actions.

Question 2

A demonstration of the applicant's partnership with, or plans to use funding to increase partnership with:

- Local health care and managed care plans
- Public health systems
- Behavioral health
- Social services
- Justice entities
- People with lived experiences of homelessness
- Other (workforce system, services for older adults and people with disabilities, Child Welfare, education system)

Question 2 Response
The new Housing for Health Division (H4H) operates within the County Human Services Department. As a result, the Division has built-in opportunities for collaboration around California Department of Social Services (CA DSS) programming related to housing and homelessness. All CA DSS grant programs are now managed by Housing for Health Division staff in partnership with other Division leaders. These programs include Home Safe, Bringing Families Home, the Housing and Disability Advocacy Program, the CalWorks Housing Support Program, and Project Roomkey. The Division is also building partnerships with

the local Workforce Development Board including funding partnerships related to Cal Fresh Employment and Training funding. Other opportunities exist within the department related to helping consumers access public benefits including Medi-Cal, General Assistance, CalFresh, CalWorks, and In-Home Supportive Services. Operational partnerships exist with Adult Protective Services and Family and Children's Services within the Department.

Santa Cruz County has one Medi-Cal managed care plan, the Central California Alliance for Health (The Alliance). The CEO of the Alliance is a member of the CoC Board and staff from The Alliance and H4H are currently collaborating on a variety of funding-related projects including HHAP and CalAIM incentive program funds. By layering funding resources together, The Alliance and H4H hope to have a more significant and lasting impact in the community.

The County Health Services Agency (HSA) includes environmental health, public health, clinics, and behavioral health operational divisions. The assistant director of the Agency sites on the CoC Board and H4H staff partner with multiple staff within HSA on a variety of projects.   Some examples include SAMHSA funding for outreach and case management for people experiencing homelessness and struggling with serious mental health issues, federal health care for the homeless funding and programs, public health support for homeless families with pregnant mothers and young children, and environmental health involvement in ensuring safe public spaces and buildings. HSA and HSD leadership meet on a regular basis and have an established funding and operational partnership agreement that gets updated on a regular basis.

Partnership with justice system entities is also in place and evolving. One of our community-based organization partners works with the Sheriff to help coordinate safe discharges of women from the local jail. Our new Public Defender sits on our CoC Board. H4H staff collaborate with the Sheriff's community policing unit on outreach and engagement efforts. The Sheriff also supports a collaborative project with Behavioral Health to serve people experiencing homelessness with repeated histories of legal system involvement. Probation staff have participated in linking people to resources through the Coordinated Entry process.

H4H also partners with the County Office of Education and McKinney-Vento liaisons at local school districts. The liaison for the County Office of Education co-chairs a local youth provider meeting and helped coordinate shared funding planning with H4H to help families with students experiencing homelessness. One of the districts in the County and the County Office of Education collaborated with H4H on a state application for family homelessness challenge grant funding.

H4H works with Applied Survey Research (ASR) to support the implementation of the Point-in-Time count and over the next year will be working with ASR to create a Housing for Health consumer evaluation team that would collect and provide ongoing feedback to CoC leaders on the quality of system services and suggestions for improvement.

Question 3

 A description of specific actions the applicant will take to ensure racial and gender equity in service delivery, housing placements, and housing retention and changes to procurement or other means of affirming racial and ethnic groups that are overrepresented among residents experiencing homelessness have equitable access to housing and services.

Note: These actions should be aligned with the equity-focused Outcome Goals and related strategies described in previous Parts, but should not need to be limited to those strategies.

Question 3 Response
H4H is undertaking a variety of steps to identify and address racial, ethnic, and gender disparities in our work. H4H will explore the creation of an informal advisory group of persons of color to lead in the identification of culturally responsive outcome goals and implementation strategies. All Housing for Health

Division staff are participating in one-on-one and group coaching sessions on racial and ethnic disparities as part of a department-wide commitment to addressing this issue.

In partnership with the Human Services Business Analytics Division, H4H established a specific county operational objective to ensure Latinx/Hispanic households living in COVID-19 shelters received equitable access to permanent supportive housing services and resources. The same Division helps H4H disaggregate data by race, ethnicity, gender, and other subpopulations as needed to identify potential disparities. Internal recruitment and hiring practices are being evaluated with changes being implemented to help diversity the workforce.

H4H maintains several bilingual designated positions to help address language access barriers. Our community is changing our coordinated entry assessment tool to address established racial and ethnic biases inherent in the VI-SPDAT tool currently in use. We will be monitoring the implementation of a new coordinated entry tool to work toward ensuring it does not introduce other biases into the assessment, matching, and prioritization process.

Question 4

A description of how the applicant will make progress in preventing exits to homelessness from institutional settings, including plans to leverage funding from mainstream systems for evidence-based housing and housing-based solutions to homelessness.

Note: Such mainstream systems could include:

- Physical and behavioral health care systems and managed care plan organizations

- Public health system

- Criminal legal system and system for supporting re-entry from incarceration

- Child welfare system

- Affordable housing funders and providers

- Income support programs

- Education system

- Workforce and employment systems

- Other social services and human services systems

Question 4 Response

H4H staff have continued and initiated new efforts to increase coordination with institutional partners. H4H is working with the local managed care plan and hospitals to increase coordination and capacity for recuperative care services for those exiting health care institutions. CalAIM resource deployment is part of this discussion, including planning for short-term post-hospitalization housing. Deeper and additional partnerships are needed with behavioral health care institutions and their relationships with recuperative care.

The local Monarch Services program supported with California Governor's Office of Emergency Services (Cal OES) funding designed to link all women released from jail with appropriate exit resources is a model partnership program within the County. The program reaches women while in jail and provides them with contact information prior to release. They offer a 24/7 confidential, bilingual crisis support line, a safe release emergency shelter, peer counseling, legal assistance and advocacy, and additional services. Their approach represents a local community best practice regarding institutional partnerships.

H4H staff work with Adult Protective Services (APS) and Family and Children's Services (FCS) staff within the department to engage in collaborative planning and direct services support for APS and child welfare involved families. H4H will be co-implemented the Home Safe program with APS in the upcoming year that will including a housing navigator/tenancy sustaining social worker and flexible housing assistance funding for APS clients at-risk of or currently experiencing homelessness.   FCS staff work with H4H to link child-welfare involved families with rapid rehousing and permanent housing subsidies from the Housing Authority.

Question 5

Specific and quantifiable systems improvements that the applicant will take to improve the delivery of housing and services to people experiencing homelessness or at risk of homelessness, including, but not limited to, the following:

(I) Capacity building and workforce development for service providers within the jurisdiction, including removing barriers to contracting with culturally specific service providers and building the capacity of providers to administer culturally specific services.

(II) Strengthening the data quality of the recipient's Homeless Management Information System.

(III) Increasing capacity for pooling and aligning housing and services funding from existing, mainstream, and new funding.

(IV) Improving homeless point-in-time counts.

(V) Improving coordinated entry systems to strengthen coordinated entry systems to eliminate racial bias, to create a youthspecific coordinated entry system or youth-specific coordinated entry access points, or to improve the coordinated entry assessment tool to ensure that it contemplates the specific needs of youth experiencing homelessness.

Question 5 Response
The Human Services Department provides a range of ongoing staff development and training resources with some of these resources available to community partners. These resources include trainings on understanding race and systemic racism, culturally relevant practice, mental health first aid, and customer-centered services delivery. The H4H Division currently sponsors training, coaching, and technical assistance for some providers around the evidenced-based practice of strength-based case management. H4H intends to make this a foundational practice among providers within the H4H provider network. Our County Behavioral Health Department is making available training and coaching on the evidenced-based practice of Critical Time Intervention (CTI) for programs in the community that operate time and outcome-bound programs. As part of our local coordinated entry redesign, we are working toward a housing needs assessment and housing problem solving tool, resources, and training curriculum for community providers.

The local CoC is currently updating its HMIS policies and procedures, including update the section on HMIS data quality. The CoC and our HMIS vendor host a monthly HMIS lead and users meeting with a regular focus on improving data quality and providing related technical assistance to HMIS users. Local H4H contracts include performance metrics related to improving data quality.

H4H has been developing its capacity to pool and align housing and services funding from multiple sources. The internal contract and finance team now helps manage over 40 discrete funding contracts and helps leverage additional federal funding for human services related activities of the Division. H4H is working with County contract procurement professionals to establish a housing for health qualified vendor pool to allow for streamlined provider selection, pooling or collaborative funding, and streamlined contract

execution for housing and services programs related to addressing homelessness within the County.

The local CoC approved of moving from a point-in-time (PIT) count every two years to funding an annual count. The 2022 count included the introduction of a mobile application to the field-based counting process. The PIT has been collaboratively planned with Applied Survey Research (ASR) for multiple local counts allowing for more consistency in count administration and involvement. In addition to the county, H4H plans to work with HSR to create an ongoing consumer research evaluation team that will help with the PIT and evaluation of the coordinated entry system and resources within the system.

The local coordinated entry system is currently being redesigned, in part to eliminate racial bias identified in the currently used VI-SPDAT assessment tool. The community is working toward utilizing a housing needs assessment tool that can be utilized by CalAIM providers as well as H4H currently contracted providers. The tool focuses on asking actionable questions related to barriers to obtaining and maintaining housing and to help with matching people to specific resources. The draft, locally created, tool is currently undergoing testing with an intention of implementing a new coordinated entry approach in FY 22-23. The tool is being tested among different population groups to determine if changes are necessary. The proposed new approach includes establishing specific Housing for Health connector agencies and staff with training in using the tool, incorporating data into HMIS, engaging in housing problem solving, and linking people with immediate steps they can take to help them get on a path to permanent housing. There will be specific connector roles for subpopulations including youth. Earlier rounds of HEAP and HHAP funding have been used to support the creation of a youth-specific drop-in program in the City of Santa Cruz. This HHAP-3 proposal includes a budget request to support the creation of a youth-focused transitional housing program.

Question 6

Evidence of connection with the local homeless Coordinated Entry System.

Question 6 Response
H4H serves as the coordinated entry administrative entity for the CoC. Our community has currently undertaken a coordinated entry redesign process that includes changing our current assessment, matching, and prioritization process. At the same time, we are updating our Homeless Management Information System (HMIS) policies and procedures to clarify the interface between coordinated entry redesign and access to HMIS for local agencies and providers.

H4H staff are working with the Central California Alliance for Health (THE ALLIANCE), local Medi-Cal managed care plan, to determine how to link our coordinated entry process and assessment with CalAIM enhanced care management and community support resources for their members experiencing homelessness that are eligible for their services. The partnership with THE ALLIANCE also involves working through data sharing agreements between our county Health Services Agency, Human Services Department, and our local Health Information Exchange nonprofit known as the Santa Cruz Health Information Organization.

Table 4. Outcome Goals		
Outcome Goal #1a: Reducing the number of persons experiencing homelessness.		
Baseline Data:	**Outcome Goals July 1, 2021 - June 30, 2024**	
Annual estimate of number of people accessing services who are experiencing homelessness	**Decrease/Increase in # of People**	**Decrease/Increase as % Change from Baseline**
2,629	2,892	Increase of 10%
Optional Comments		
Given increased street outreach capacity through one-time grants, an anticipated increase in the number of households losing housing due to pandemic related impacts and a continuing tight housing market, we anticipate an increase in the # of people served over the next three years.		
Describe Your Related Goals for Underserved Populations and Populations Disproportionately Impacted by Homelessness		
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:		**Describe the trackable data goal(s) related to this Outcome Goal:**
2022 PIT data shows an increase in the number of people experiencing homelessness among particular subgroups. These include veterans, individuals with behavioral health conditions, and individuals with HIV/AIDS. Given expansions in street outreach capacity we anticipate more contact with unhoused veterans through outreach programs. We are working closely with our local Medi-Cal managed care plan, Central California Alliance for Health, to expand temporary housing capacity, housing navigation, and tenancy sustaining services over the next three years for people experience homelessness with significant health conditions. We anticipate seeing an increase in documented program enrollments and services for these populations.		Increased outreach enrollments and contacts among veterans and those with health conditions; increased enrollments of those with health conditions in temporary housing and CalAIM community support services

Outcome Goal #1b: Reducing the number of persons experiencing homelessness on a daily basis		
Baseline Data: **Daily Estimate of # of people experiencing unsheltered homelessness**	**Outcome Goals July 1, 2021 - June 30, 2024**	
	Reduction in # of People	**Reduction as % Change from Baseline**
1,700	1700	0%
Optional Comments		
Given the availability of one-time resources from CalAIM, HHAP, and other state sources, we anticipate expansion in outreach and services capacity as well as movement toward year-round low barrier navigation center programming. These increased efforts should contribute to reductions in unsheltered homelessness unless the number of individuals losing housing increases at a higher rate than prior trends.		
Describe Your Related Goals for **Underserved Populations and Populations Disproportionately Impacted by Homelessness**		
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	**Describe the trackable data goal(s) related to this Outcome Goal:**	
2022 PIT count data for the County shows an estimated 65% increase from 2019 in the number of unsheltered Blacks/African Americans in the County. Other HMIS data sets also show lower levels of access to services and housing resources among this population. Over the next three years, the community should focus attention on ensuring equitable and culturally affirming access to services and housing resources for this population.	Please note that we intend to follow the principle of "nothing for us without us" therefore we will explore the formation of an informal advisory board of persons of color and will revise all of the following data goals in accordance with the group's recommendations. An example to be considered by the informal board; increase the number of black/African Americans served through culturally responsive outreach strategies.	

Outcome Goal #2: Reducing the number of persons who become homeless for the first time.		
Baseline Data: **Annual Estimate of # of people who become homeless for the first time**	**Outcome Goals July 1, 2021 - June 30, 2024**	
	Reduction in # of People	**Reduction as % Change from Baseline**
1,229	1,204	-2%
Optional Comments		
The County will be investing nearly $1M in homelessness and eviction prevention resources in FY22-23 with an intention of reducing the number of households losing housing and entering homelessness. The ending of COVID-related eviction protections in a county identified as "high-risk" for housing		
Describe Your Related Goals for **Underserved Populations and Populations Disproportionately Impacted by Homelessness**		
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	**Describe the trackable data goal(s) related to this Outcome Goal:**	
Comparing data from the 2019 and 2022 count shows the greatest increase (more than 50%) in homelessness among certain subpopulations including those with behavioral health conditions, HIV/AIDS, and Black/African Americans. Further information is needed to understand ways in which the community could prevent these populations from becoming homeless. One area for focus is deepening collaborations with health and behavioral health system providers to ensure appropriate institutional discharges, follow-up services, and linkages with housing-focused supportive services. CalAIM partnerships over the next three years will be critical for improving prevention efforts among these populations.	Develop local HMIS measures to track the demographics and causes more closely on households experiencing homelessness for the first time	

Outcome Goal #3: Increasing the number of people exiting homelessness into permanent housing.		
Baseline Data: **Annual Estimate of # of people exiting homelessness into permanent housing**	**Outcome Goals July 1, 2021 - June 30, 2024**	
	Increase in # of People	**Increase as % Change from Baseline**
558	614	10%
Optional Comments		
Expanded resources, planned permanent supportive housing projects through Project Homekey, and a systemwide focus on improved housing outcomes should result in increases in the number of people exiting homelessness to permanent housing. These efforts will be tempered by deepending		
Describe Your Related Goals for **Underserved Populations and Populations Disproportionately Impacted by Homelessness**		
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	**Describe the trackable data goal(s) related to this Outcome Goal:**	
According to HDIS data, exit percentages from homelessness to permanent housing are greater from white, hispanic/latinx groups compared to other racial/ethnic groups. According to 2021 HDIS data, 38.3% of exits to permanent housing were among white, hispanic/latinx groups and they represented 31.4% of those served. Whites, non-hispanic/non-latinx groups, represented 35.6% of exits to permanent housing and 44% of the population served. Blacks/American Americans and Multiple Race groups showed lower percentages of exits to permanent housing when compared to the % of population served among these groups.	Goal over the next three years is to work on reducing these racial/ethnic differences in exits to permanent housing.	

Outcome Goal #4: Reducing the length of time persons remain homeless.

Baseline Data: Average length of time (in # of days) persons enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs"	Outcome Goals July 1, 2021 - June 30, 2024	
	Decrease in Average # of Days	Decrease as % Change from Baseline
152	152	0%

Optional Comments
The prior three years of HDIS data indicate a gradual increase in the # of cumulative days homeless. We plan to work toward decreasing this trend through expanding outreach and incentives for private landlords to partner with existing RRH and PSH programs and with making changes to shelter standards and operational resources.

Describe Your Related Goals for Underserved Populations and Populations Disproportionately Impacted by Homelessness	
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	Describe the trackable data goal(s) related to this Outcome Goal:
HDIS data shows different durations of time between enrollments in rapid rehousing and permanent supportive housing programs and time to move-in. Over the next three years, the community would like to see greater consistency among these lengths of time to move-in dates for different racial and ethnic groups.	HDIS racial disparities in permanent housing services median number of days to move-in for rapid rehousing and permanent supportive housing.

Outcome Goal #5: Reducing the number of persons who return to homelessness after exiting homelessness to permanent housing.		
Baseline Data: **% of people who return to homelessness after having exited homelessness to permanent housing**	**Outcome Goals July 1, 2021 - June 30, 2024**	
	Decrease in % of People who return to Homelessness	**Decrease as % Change from Baseline**
6%	6%	0%
Optional Comments		
Working over the next three years to provide housing/tenancy sustaining services for those exiting to permanent housing will be a priority over the next three years, particularly for those with behavioral health conditions.		
Describe Your Related Goals for **Underserved Populations and Populations Disproportionately Impacted by Homelessness**		
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	**Describe the trackable data goal(s) related to this Outcome Goal:**	
HDIS baseline data over the past three years shows higher rates of returns to homelessness among those with behavioral health conditions particularly those with substance use disorders. Working toward reducing the risk of relapse and housing loss will be an important area of focus over the next three years.	Returns to homelessness among those with a substance use disorder.	

Outcome Goal #6: Increasing successful placements from street outreach.		
Baseline Data:	**Outcome Goals July 1, 2021 - June 30, 2024**	
Annual # of people served in street outreach projects who exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations.	**Increase in # of People Successfully Placed from Street Outreach**	**Increase as % of Baseline**
0	50	N/A
Optional Comments		
Historically, the community has not operated sustained street outreach projects that utilize HMIS data for tracking their efforts. One-time funding has been secured by the County Behavioral Health Department to expand street outreach for those struggling with behavioral health issues and the Housing for Health Division also secured one-time funding for outreach to unincorporated areas of the County. In addition, the County has invested in the		
Describe Your Related Goals for **Underserved Populations and Populations Disproportionately Impacted by Homelessness**		
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	**Describe the trackable data goal(s) related to this Outcome Goal:**	
2022 PIT count data indicates significant increases in the # of unsheltered individuals struggling with behavioral health conditions, HIV/AIDS, and veterans. Over the next three years, we hope to see increased street outreach enrollments among these groups and linkage of these groups to pathways to permanent housing.	Program outreach enrollment among unsheltered priority groups via demographic data; see increase in # of people transitioning from street outreach to a housing pathway.	

Table 5. Strategies to Achieve Outcome Goals

Strategy	Performance Measure to Be Impacted (Check all that apply)
Description Eviction and homelessness prevention investments	☐ 1. Reducing the number of persons experiencing homelessness. ☐ 2. Reducing the number of persons who become homeless for the first time. ☐ 3. Increasing the number of people exiting homelessness into permanent housing.

Explanation of How the Proposed Use of Funds Will Complement Existing local, state, and federal funds and equitably close the gaps identified in the Local Landscape Analysis

The proposed use of funds covers activities not covered by other funding sources, with an emphasis on creating and sustaining low-barrier houisng navigation centers distributed throughout the County. Focus on low-barrier navigation centers reflects alignment with Housing for a Healthy Santa Cruz framework goals and a strong community desire to reduce the number of households and people experiencing unsheltered homelessness. Centralized flexible rental assistance funding will help providers access funding for rehousing and housing problem solving needs including housing deposits, move-in furnishings, application fees, transportation expenses, etc. Outreach and engagement funds designated to continue funding for street outreach efforts to unincorporated areas of the county. The proposed permanent supportive housing investment extends outreach and incentives for private landlords to participate in permanent supportive housing voucher programs.

COMMENTS:

Actual breakout of funds over each fiscal year will depend on funding available from other sources and start dates for particular programs.
