CDBG Required Documentation Checklists

The following tables provide listings of required documentation for CDBG **Public Facility** activities. A separate list is provided for each of the primary activity types. This checklist details the types of documentation required for:

- 1. Threshold prior to Standard Agreement Issuance
- 2. Submitted prior to First Draw
- 3. Submitted with Financial Reports (aka request for reimbursement)
- 4. Submitted with Closeout
- 5. Retained in local files available for HCD, HUD, or OIG monitoring and audit.

The tables below show backup documentation based on activity type and phase. Not all documents will be required in all circumstances.

Please note: Grantees must not submit sensitive Personal Identifying Information (PII) when documenting incurred costs. This may include a combination of first and last names, social security numbers, birthdates, addresses of employees, etc. Documentation containing sensitive PII must either be de-identified or redacted. Any documentation containing sensitive PII submitted via the eCivis Grants Management System will be immediately returned without further review so that grantee can remove and replace with documentation that does not contain sensitive PII.
