ReCoverCA Celebrates Another Homeowner Move-In!

ReCoverCA congratulates Greg\* on moving into his newly reconstructed home! Greg\* has lived in his community for more than 25 years and said he has loved raising his family there. He is grateful he learned about the ReCoverCA Housing Programs from his daughter. The same fire also impacted his son and daughter but, thankfully, they were able to get housing quickly and relatively close to where they previously lived. The proximity to his family and his love for his town is why Greg wanted to rebuild his home on his property after the disaster that impacted the town. As a professional landscaper for over 35 years, he is now excited to start landscaping his property.

The rebuild kept some of the original retaining walls and features, a fond memory and landmark of his prior home. The new appliances, kitchen bench for entertaining, and natural lighting are other great features Greg enjoys about his home. Greg and his partner look forward to moving him in and getting settled as a new chapter for Greg starts. Greg said he feels an immense sense of relief now that he has his home back.

When asked about the ReCoverCA Housing Programs and his experience, he said there had been outstanding communication with program representatives and that he interacted with kind and friendly staff throughout the process. He encourages others to apply for the program and “be patient and do not give up!”
